

NICHOLAS FOROGLLOU

GAME DESIGN

I'm a passionate Game Designer that thrives in leadership positions and I deliver consistent results in a timely manner with a team. I specialize in design philosophy and 3D development. I have experience in Virtual Reality (VR) development and 2D as well. My preferred coding language is C# and my preferred engine is Unity, but I'm always open to learning new skills and improving on the ones I already know.

Education:

Bachelor of Science: Game Design
Full Sail University - Winter Park, FL
August 2018 - June 2020

Consistent Leadership role on every team
Coursework in Design, C#, UI/UX, and Animation
The Interactive Technology Bachelor's degree with a concentration in Game Design that enhances my ability to work in a game studio environment, and consists of high-level game design and production courses.

Work Experience:

eQ Technologic - June 12th 2021 - February 23rd 2023
Worked in an agile sprint environment on the Northrop Grumman project, performing various technical tasks throughout planned scrums.

Sentry View Systems - April 12th 2023 - Present
Worked in an agile scrum development team developing command and control software for government and commercial applications.
Wore multiple hats, including scrum master, but primarily the UI development lead. Led a team of four subcontractors.

Experience with development, task management, and maintaining private repositories.
Experience with Blazor, CSS, and web development.
