

Niharini Nandella

Data Engineer

720-882-3437 | Nandellaniharinip@gmail.com | Dallas, TX

SUMMARY

- 4+ years of strong experience in Data Analyst, Data mining with large data sets of Structured and Unstructured data, Data Acquisition, Data Validation, Predictive modeling, Statistical modeling, Data modeling, Data Visualization, Web Crawling, Web Scraping. Adept in statistical programming languages like R and Python, SAS, Apache Spark, Matlab including Big Data technologies like Hadoop, Hive, Pig.
- Experienced in working in SDLC, Agile, and Waterfall Methodologies.
- Proficiency in Designing Business Intelligence Solutions with Microsoft SQL Server and using MS SQL Server Integration Services (SSIS), MS SQL Server Reporting Services (SSRS), and SQL Server Analysis Services (SSAS).
- Knowledge of cloud platforms like Amazon Web Services, Azure, and Databricks (both on Azure and AWS integration of Databricks).
- Well-versed in Data Mining solutions to various business problems and generating data visualizations using Tableau, and Power BI.
- Hands-on experience in SQL and NoSQL databases such as Snowflake, HBase, Cassandra, and MongoDB.
- Proficiency in using Version Control systems like Git.

EXPERIENCE

JPMorgan Chase & Co., USA | Data Engineer

Jan 2024 - Current

- Responsible for cloud native experience, especially on big-data, high volume data parallel processing and data lakes APIs
- Designing and developing self-configurable user interface for DQ measures configuration and reporting
- Implemented complex transformations and manipulations on data using PySpark RDDs and DataFrames, ensuring high performance and scalability.
- Developing Spark using Scala for data extraction and transforming the data as per the business needs.
- Extract transactional data from MySQL Databases and load the data into Hive tables using Sqoop.
- In-depth knowledge of the financial services industry and their IT systems, their general interdependencies.
- Used Apache airflow in GCP composer environment to build data pipelines and used various airflow operators like bash operator, Hadoop operators, and python callable and branching operators) Deployed application to GCP using Spinnaker (rpm-based).
- Optimize SQL queries, resulting in a 40% reduction in query execution time and enabling faster data retrieval for analytics purposes.
- Worked in Agile environments, participating in daily stand-ups, sprint planning, and retrospective meetings to ensure alignment with project goals and priorities.

XLogic Technologies, India | Data Engineer

Jan 2019 - July 2022

- Implemented data quality checks in Apache Airflow, reducing data errors by 25% and ensuring data consistency across all pipelines.
- Performed data extraction, transformation, loading, and integration in a data warehouse, and operational data stores.
- Loaded application analytics data into a data warehouse at regular intervals of time.
- Involved in Data Migration using SQL, SQL Azure, Azure Storage, and Azure Data Factory, SSIS, PowerShell.
- Created action filters, parameters, and calculated sets for preparing dashboards and worksheets using Power BI.
- Designed and maintained MySQL databases, optimizing schema design and indexing strategies for efficient data storage and retrieval.
- Deployed and managed data engineering solutions on Azure cloud platform, leveraging services such as Azure Data Factory, Azure Databricks, and Azure SQL Database.
- Implemented a Continuous Delivery pipeline with Docker, Git Hub, and AWS.
- Refactored existing ETL pipelines using Apache NiFi, resulting in a 20% pipeline performance and reliability improvement.

SKILLS

- **Programming Languages and Packages:** Python, R, SQL, NumPy, HTML, CSS,
- **Big Data and Cloud:** Spark, Apache Kafka, Apache Flink, Databricks, EC2, AWS Glue, GCP
- **Databases, Data Warehouses, and Storages:** MSSQL, Postgres, AWS RDS, Elastic Search, Redis, MongoDB, FireBase, Druid, AWS S3, Azure Data Lake, Snowflake, Amazon Redshift, Google Big Query
- **Data Modeling:** data modeling (Dimension, ER) including star schemas, snowflake schemas, and data normalization techniques
- **ETL/ELT Tools:** Apache Spark, Talend, AWS Glue, EMR, Debezium, DBT
- **Version Control:** Git, Jenkins, CI/CD
- **Containerization:** Docker, Kubernetes
- **Data Visualization:** Power BI, Superset, Looker, Tableau, Kibana, QuickSight
- **Others:** Shell scripting, Cron Jobs, LLM

CERTIFICATION

Tableau Desktop Specialist.

EDUCATION

Master in Information Management | Oklahoma State University, Stillwater, OK

Bachelor of Technology in Information Technology | Maturi Venkata Subba Rao University
