Software Developer
Highlands Ranch , CO

Portfolio | 720-708-8809

Postgraduate software engineer with full-stack web development experience and hands-on systems knowledge. I build web applications, wrangle servers through command line interfaces, and collaborate effectively through Git workflows. I love using Raspberry Pi's as a playground to experiment and learn how systems work together.

Technical Skills

Java	Front End (html, css, javascript)	Backend (PHP, SQL)	python	scala	C
Unreal Engine 5		Meta Quest VR Plugins	Apache2	Raspberry Pi	
		PostgreSQL	MariaDB	MySQL	
PC Deployment	System Maintenance	Help Desk Solutions	Team Viewer / Remote Desktop		

Professional Experience

Service Technician | ETS IT Services - CSU | Fort Collins, CO

August 2023 - May 2025

- Provided comprehensive IT support including help desk services and technical troubleshooting
- Managed PC deployment and system update maintenance for university infrastructure
- Collaborated with team members using remote support tools like TeamViewer
- Demonstrated strong problem-solving skills in fast-paced technical environment

Customer Service Representative | MicroCenter Denver | Denver Tech Center, CO

August 2020 - October 2020

- Stocked products and sold replacement services to customers.
- Maintained detailed product knowledge across diverse technology platforms

Sales Associate | Pioneer Landscape Center | Highlands Ranch, CO

May 2022 - August 2022

- Handled customer inquiries and provided product recommendations
- Managed inventory and maintained detailed product knowledge

Projects

RaspberryPi Webserver | raspberrypi.nkivett.work

A selfhosted portfolio website using Cloudflare to expose it to the internet safely. The portfolio provides information about me, my past achievements, as well as statistics about the raspberry pi that is currently hosting the webserver.

Technologies: Apache, HTML, CSS, PHP, python, Raspberry Pi 3B+

Virtual Reality Drawing (UE5) | [Github](#)

A VR design project that allows the user to switch between two different drawing styles. It was used to experiment whether participants are more comfortable with drawing using 2-D or 3-D spaces in VR.

Technologies: Unreal Engine 5, Meta Quest 3s

Phaser3.js Game | [Github](#) | [Itch.io](#)

A solo game development project. Created for the Brackeys GameJam hosted on [Itch.io](#). Art also created by me.

Education

Colorado State University / Fort Collins, CO

May 2025

B.S. Computer Science
