EDUCATION

Rochester Institute of Technology

Bachelor of Science in Computer Science

Rochester, NY

- Graduated May 2025
- **GPA:** 3.72
- **Relevant Courses:** Introduction to Software Engineering, Concepts of Parallel and Distributed Systems, Introduction to Artificial Intelligence, Principles of Data Mining, Principles of Data Management, Mechanics of Programming, Introduction to Computer Science Theory, Analysis of Algorithms, Information Retrieval

WORK EXPERIENCE

Noetic Software

Jan 2025 – May 2025

Software Development Intern

Horsham, PA

- Created an API using C# to handle proprietary file conversions to CSV
- Implemented a messaging broker using RabbitMQ alongside the API to handle and organize user input
- Reviewed the work of others in daily stand-up meetings and pull requests in an Agile environment

Rochester Institute of Technology - Golisano Institute for Sustainability

Jan 2023 – Aug 2023

Data Mining/ Analysis Intern

Rochester, NY

- Organized and visualized various sources of data using various Python packages (Pandas/Scipy/etc)
- Gathered image data in order to build an object detection model using the Python package YOLO
- Presented discoveries to client in weekly meetings

SKILLS

- **Programming:** Java, Python, C, C#, SQL
- **Tools:** Visual Studio, Visual Studio Code, Git, IntelliJ IDEA, PyCharm, Eclipse, Jupyter, Windows, MATLAB

PROJECTS

Online Store (Academic)

- Worked with a team of students to develop an online store using the Scrum management style, which included frequent stand-up meetings and live demonstrations
- Documented and wrote test cases for the API, which contributed to our overall code coverage of 98%
- Utilized various languages, including TypeScript, HTML, and Java, to help implement the online store's inventory system

Basement Adventure Game (Personal)

- Learned Unity, including C# scripting, in order to create a browser game with arrow and mouse controls
- Implemented most of the UI for the game, along with scripting game mechanics involving attacking enemies
- Collaborated with a team to develop the game over the course of 48 hours for GMTK Game Jam 2022, with our game being ranked in the top 30% of over 6000 entries
