Business: manufacturing/Importing Clothes, Footwear and accesories for dancers

Professional Area: Technologies - Systems

Description: Systems Manager

- Solving problems with the ERP, printers, hardware, server, internet connection and everything else that had to do with technology, in the distribution center or any of the stores.
- Ecommerce, manage, sales and final customer service.
- Web marketing, includes Google AdWords, SEO, Facebook, twitter, YouTube, LinkedIn.
- Design of promotions, banners, social media images and physical coupons in Photoshop.
- Edition of videos about dancing to play it in the TVs of the stores.
- Massive mailing. Making a database of clients in excel, send emails designed by me using constant contact.
- Web server administration, mail accounts management, Web publishing updates and improvements to the main website.
- Warehouse management, taking inventory in the distribution center and stores using a data collector with barcodes and import the file to the ERP, making a report about the missing and remaining items. Also, I had to calculate the minimum and maximum amounts of the most selling items to assure clients always find the top products in the store.
