Summary

OCI Certified Generative AI Professional with expertise in cloud-native DevOps and scalable systems. Skilled in building AI-driven applications using LLMs, embeddings, and infrastructure automation.

Education

Texas A & M University Corpus Christi, MS in Computer Science	2024 – 2025
Purdue University, Post Graduate Program in DevOps	2022 – 2023
Jawaharlal Nehru Technological University Kakinada, B.Tech in Electronics and Communication Engineering	2017 – 2021

Work Experience

Software Engineer – Infosys, Hyderabad (Dec 2021 – Jan 2024)

1. Company: United Airlines Role: Developer

Built and deployed a scalable microservice using **Apache Camel** and **Spring Boot**, replacing legacy Tibco workflows. Integrated multiple upstream/downstream systems to streamline message transformation and routing, achieving lower latency and improved system maintainability. Collaborated with cross-functional teams to ensure smooth migration and operational reliability.

2. Company: Xerox Role: DevOps Engineer

Led DevOps automation for cloud-native applications using **AWS CodePipeline**, **CodeBuild**, and **GitHub Actions**. Automated infrastructure with **CloudFormation** and built serverless solutions using **Lambda** and **API Gateway**. Established robust deployment strategies with monitoring and rollback mechanisms, reducing manual effort and improving delivery confidence.
