Data Analyst

SUMMARY

Data-driven and results-oriented **Data Analyst** with **5+ years of experience** delivering actionable business insights across hospitality and financial services sectors. Skilled in building scalable data pipelines, predictive models, and executive dashboards to drive revenue growth, operational efficiency, and strategic decision-making. Adept at bridging technical expertise with stakeholder needs to deliver high-impact solutions using **Python, SQL, Tableau, and cloud platforms (AWS, GCP)**. Recognized for leading cross-functional teams, improving data governance, and implementing data-driven strategies.

CORE COMPETENCIES

- **Languages:** Python (Pandas, NumPy, Scikit-learn), R, Bash
- **Databases:** SQL (MySQL, PostgreSQL, MS SQL Server), Snowflake, BigQuery, MongoDB
- **Visualization:** Tableau, Power BI, Looker, Superset, Excel (Power Query, Power Pivot)
- **Data Engineering:** Apache Airflow, dbt, Fivetran, AWS Glue, Azure Data Factory
- **Cloud & DevOps:** AWS (S3, Redshift, Athena), GCP, Docker, Git
- **Analytics & Modeling:** Forecasting, Time-Series, Clustering, A/B Testing, Fraud Detection
- **Project Management:** Agile/Scrum, Jira, Confluence, BRD/FRD Documentation, Stakeholder Communication

PROFESSIONAL EXPERIENCE

Data Analyst

KTK Hospitality Inc., San Diego, CA | **Feb 2025 – Present**

- Built a **centralized reporting system** (AWS Glue + Python + S3), cutting manual reporting time by **70%**.
- Designed dynamic **Tableau dashboards** for RevPAR, occupancy, and guest satisfaction metrics used by senior leadership to optimize pricing and guest experience.
- Developed a **Prophet-based demand forecasting model** achieving **±4% MAPE accuracy** for staffing and inventory planning.
- Led **A/B testing** for mobile check-ins and upsell strategies, increasing adoption by **28%** and boosting revenue by **11%**.
- Established **data governance practices** to ensure data quality, GDPR compliance, and accurate reporting across systems.

Project Manager – Data Analytics Lead

Kotak Securities Ltd., Mumbai, India | **Feb 2017 – Aug 2021**

- Directed a **7-member Agile analytics team** delivering real-time Power BI dashboards for trade performance and fraud alerts.
- Spearheaded **Snowflake migration**, redesigning 100+ legacy tables and reducing data processing time by **40%**.
- Created a **segmentation model (RFM)** for targeted campaigns, improving new account activation rates by **9%**.
- Completed **data warehouse modernization** 3 months ahead of schedule, enhancing scalability and analytics capabilities.
- Received **Kotak Innovation Award 2020** for developing a predictive fraud detection system leveraging SQL and ML.
