EDUCATION

University of Texas at Dallas

B.S. in Computer Science

Richardson, Texas

May 2025

Related Coursework: Data Structures & Algorithms, Computer Organization & Programming, Computer Networks, Advanced Algorithm Design and Analysis, Software Engineering, Object-Oriented Programming, Database Systems, Operating Systems, Artificial Intelligence, Automata Theory, Probability and Statistics in Computer Science

Collin College

Associate of Science

Plano, Texas

May 2023

EXPERIENCE

Walmart

Certified Immunizing Pharmacy Technician

Murphy, Texas

Mar 2023 - Present

- Delivered compassionate, customer-focused care by actively listening to patient concerns and collaborating with pharmacists to support accurate medication processing and improve customer satisfaction scores by 15%.
- Analyzed patient engagement trends and vaccine uptake data using Excel to identify gaps and support targeted outreach strategies that increased immunization rates by 25%.
- Collaborated with pharmacists to optimize workflow in a fast-paced healthcare environment, improving operational efficiency and reducing average patient wait times by 12% through process-focused analysis.

CVS Pharmacy

Certified Immunizing Pharmacy Technician, Technician Training Coach

Plano, Texas

Sep 2021 - Mar 2023

- Assisted pharmacists in the preparation and distribution of prescriptions while maintaining a 99.8% accuracy rate and complete compliance with regulatory requirements.
- Educated 20+ new pharmacy technicians on pharmacy systems and regulations to enhance their skills, knowledge, and efficiency in pharmacy operations, reducing errors by 30% within the first 90 days.
- Monitored medication and supply stock and usage to avoid treatment delays, leading to a 20% reduction in medication shortages and improved operational readiness.

PROJECTS

E-Commerce Headphone Pricing Analysis [\[Github\]](#)

Technologies: Python (Pandas, Beautiful Soup), Tableau

- Scraped and cleaned e-commerce headphone pricing data using Python to standardize product listings, remove inconsistencies, and prepare datasets for market analysis.
- Built an interactive Tableau dashboard with KPI cards, pricing trend charts, and brand comparison visualizations to identify retail pricing behavior, market trends, and competitive positioning.

Airline Profitability & Operations Analysis [\[Github\]](#)

Technologies: Python (Pandas, Numpy), Tableau

- Analyzed 3M+ U.S. airline flight records by cleaning and transforming raw operational data, engineering financial metrics including estimated revenue, fuel costs, delay penalties, and profit to evaluate airline performance.
- Built an interactive Tableau dashboard featuring executive KPIs, profitability trends, scatterplots, route rankings, and geographic maps to visualize operational efficiency and route-level insights.

Retail Sales Database & Business Analytics [\[Github\]](#)

Technologies: PostgreSQL, SQL, Docker

- Designed and populated a large-scale relational retail database using PostgreSQL and Docker with thousands of customer, order, and transactional records to simulate real-world sales operations.
- Developed business-focused SQL analytics queries to evaluate customer purchasing behavior, top-performing products, monthly revenue trends, and store-level KPIs for retail performance analysis.

SKILLS

Programming: Java, Python, SQL

Tools: PyCharm, Eclipse, Visual Studio, Git, Tableau, Power BI, Linux, MongoDB, AWS Services, Excel

CERTIFICATIONS

AWS Certified Cloud Practitioner (CLF-C02)

April 2025

Microsoft Power BI Data Analyst Associate (PL-300)

June 2026
