TECHNICAL SKILLS

Languages : C, C++, Java, Python, GoLang, Swift, Ansible, Shell scripting, JavaScript, SQL, HTML, CSS

Technologies: iOS Development, CI/CD, MVC, Azure, GCP, Terraform, Linux

Frameworks : Apache Kafka, AWS, git, GitHub, MongoDB, Spring Boot, SwiftUI, MySQL, TensorFlow, scikit-learn

and Tools : $\LaTeX$, Vim, XCode, IntelliJ, Docker, Jenkins, VSCode, JIRA

EXPERIENCE

- **Nickelfox Technologies** Noida, India
Software Engineer Jan 2022 – Jul 2022
 - Deployed an iOS app using Swift and SwiftUI, increasing user engagement by 25% and reducing development time by 30%.
 - Architected and implemented secure user authentication, achieving a 99.99% success rate, with efficient data persistence.
 - Collaborated with cross-functional teams to ensure 100% adherence to project timelines, enhancing team efficiency by 20%.
- **CMS Computers Ltd.** Hyderabad, India
Software Network Engineer Dec 2020 – Dec 2021
 - Performed successful migration of 200TB of data resulting in a 30% reduction in storage costs.
 - Managed storage usage, increasing capacity by 30% and saving the company \$10,000 on additional storage purchases.
 - Managed and optimized a Red Hat Virtualization environment, increasing server utilization by 30% and reducing infrastructure costs by 20% through efficient resource allocation and load balancing in a high-demand production environment.
- **Decilytics** Hyderabad, India
Software Engineer Nov 2019 – Nov 2020
 - Designed a user-friendly website, enhancing user engagement by 30% and reducing the bounce rate by 15%.
 - Created interactive data visualizations and dashboards using JavaScript libraries, increasing qualified leads by 25%.
 - Developed web applications using MVC architecture to ensure a modular and maintainable codebase.

PROJECTS

- **Custom RPC Framework**
 - Developed an RPC framework, reducing latency by 35% and optimizing data exchange for distributed applications.
 - Implemented a modular architecture, increasing scalability by 50% for seamless protocol integration.
- **Peer-to-Peer Network**
 - Engineered a peer-to-peer network, improving data distribution by 40% and reducing congestion to enhance throughput.
 - Achieved 99.5% uptime with dynamic node reallocation and redundancy, ensuring high availability.
- **Interpreter for a Custom Programming Language**
 - Engineered a high-efficiency interpreter, optimizing execution speed by 40% and reducing memory usage by 25%.
 - Improved Scanner, Parser, Syntax Tree, and Semantic Analysis by increasing processing efficiency by 25%.
- **AI Chess Bot**
 - Constructed an AI chess engine using Minimax and Alpha-Beta pruning, improving move decision efficiency by 50%.
 - Leveraged TensorFlow and scikit-learn to analyze chess games, enhancing strategic depth by 30%.
- **Text Editor**
 - Crafted a text editor with syntax highlighting and autocomplete, boosting code writing speed by 30%.
 - Integrated robust file management capabilities including save, open, and edit, elevating user experience by 25%.

EDUCATION

- **Cleveland State University, Cleveland** Aug 2024
M.S., Computer Science GPA: 3.55/4
 - **Relevant Coursework** – Advanced Operating Systems, Artificial Intelligence, Advanced Algorithms, Advanced Computer Architecture, Advanced Computer Networks, Software Quality Assurance.
- **Osmania University, India** Jul 2019
Bachelor of Engineering, Electronics and Communication Engineering
