

ROHIT KUMAR MAMIDI

Chicago, IL | (312) 871-1723 | rohitmamidi00@gmail.com | [LinkedIn](#)

SUMMARY

Backend engineer with hands-on experience in developing scalable applications using Spring Boot and microservices. Built an e-commerce platform supporting 10,000+ users and optimized a banking application managing 500+ daily transactions. Demonstrates proficiency in Java, Python, data structures, and agile practices, complemented by a solid foundation in software design. Eager to apply technical skills and collaborative mindset in an entry-level software engineering role.

EDUCATION

Illinois Institute of Technology, Chicago, IL

Master of Computer Science, Computer Science

• GPA: 3.30

Aug 2023 - May 2025

GMR Institute of Technology, Rajam, India

Bachelor of Technology, Computer Science and Engineering

• GPA: 3.20

Jul 2018 - Jun 2022

EXPERIENCE

Wipro Technologies Limited

Project Engineer

Oct 2021 - Jul 2023

Chennai, India

- Developed a scalable e-commerce platform using Java with Spring Boot for the backend and Angular with TypeScript for the frontend, collaborating with agile teams to support 10,000+ concurrent users with minimal latency.
- Implemented JWT authentication for role-based access control, enhancing security by 40% over session-based models.
- Optimized RESTful APIs for authentication, product catalogs, and order processing, reducing response times by 20%.
- Automated product uploads via CSV functionality, enabling admins to add 500+ products in under 3 minutes and streamlining inventory management.
- Enhanced database performance with MySQL indexing, decreasing data retrieval times by 30%.
- Collaborated with cross-functional teams to integrate automated transaction processing, improving processing times by 15% while supporting an agile development environment.

Wipro Technologies Limited

Project Engineer Intern

Apr 2021 - Sep 2021

Remote

- Developed a banking application incorporating email validation, CRUD operations, and account balance management using HTML, CSS, and JavaScript, handling 500+ transactions daily with 99% accuracy.
- Collaborated with team members in an agile setting to optimize transaction functionalities, cutting processing times by 15%.
- Communicated technical requirements and ensured seamless integration of file handling for persistent storage, enhancing data integrity and reducing incidents by 25%.

PROJECT EXPERIENCE

AI-Powered Insurance Quote System

Jan 2025 - May 2025

- Built a full-stack web platform using React.js, Node.js, and MongoDB to generate, compare, and purchase insurance quotes based on user data (zip, mileage, health), reducing manual processing by 85%.
- Integrated ML model (90%+ accuracy) for real-time premium prediction (<5s) and GPT-4 API for personalized recommendations, improving engagement by 35% and conversion by 25%.
- Developed secure RESTful APIs, responsive Material UI components, and features like document uploads, admin review, and policy tracking; ensured 100% test coverage and scalable cloud deployment.

Github Analytics Dashboard

Aug 2023 - Dec 2023

- Built a full-stack GitHub Analytics Dashboard using React.js, Vue.js, Node.js, and MongoDB, reducing page latency by 40% and delivering dynamic real-time analytics.
- Implemented GitHub OAuth 2.0 via react-GitHub-login for secure authentication and user data access; achieved 100% login success and <100ms API response times.
- Developed protected routing with React Router & Lodash, modular Vue components, PWA features, and live notifications, resulting in 95%+ user satisfaction.

SKILLS

- **Technologies Mastered:** Java, Python, C, Flutter, Dart, React.js, Node.js, Angular, Dockerization, Spring, HTML, CSS, JavaScript, TypeScript, RESTful Web Services, Microservice Design, AWS Knowledge, Relational Databases, Unit Testing, MongoDB, PostgreSQL, Cloud Services, Data Structures
- **Skills Applied:** MS Project, Visio Professional, Resource Planning, GitHub, MySQL, Project Management, VS Code, Continuous Integration, Agile Teams
