SUMMARY

- Accomplished Business Analyst with over 4+ years of experience gathering, analyzing, and documenting business requirements, consistently enhancing operational efficiency through strategic and innovative solutions.
- Adept at creating comprehensive Business Requirements Documents (BRD), Functional Requirements Documents (FRD), and System Requirements Specifications (SRS) to accurately translate business needs into detailed technical specifications.
- Expertise in conducting End-to-End Exploratory Data Analysis (EDA) using Python libraries, including Pandas, NumPy, and Matplotlib, to facilitate data-driven decision-making and insights.
- Skilled in data wrangling, cleaning, migration, and visualization using SQL, Power BI, and Tableau, delivering actionable insights to key stakeholders.
- Proficient in using Jira, Confluence, Git, and GitHub for version control, project management, and collaboration in fast-paced, dynamic environments.
- Hands-on experience with cloud platforms, including Microsoft Azure (Azure Data Factory, Azure Databricks) and AWS (Amazon S3, CloudWatch), to support cloud-based data management and analytics initiatives.
- Deep understanding of SDLC processes, including Agile, Scrum, and Waterfall methodologies, ensuring timely project delivery with a focus on quality and efficiency.

SKILLS

Methodologies: SDLC, Agile/Scrum, Waterfall

Languages: SQL, Python

Documentation: FRD, BRD, SRS

Project Management Tools: MS Project, MS SharePoint

Visualization Tools / Other Tools: Tableau, Power BI, Microsoft Excel, Figma, Roadmap

Analysis Skills: Cost/benefit analysis, Impact analysis, GAP analysis, Risk analysis, SWOT analysis

Tracking / Software / Other Skills: Jira, Microsoft Visio, JAD, Rational ClearQuest, RTM, UAT, Lucid chart, ETL Process, ELT Process, ERP systems, Test Outlines & Test Cases, Use Cases & Use Case Mapping, Business Requirements, Requirements Traceability Matrix (RTM), Microsoft Access, Confluence, Smartsheet, Data modeling, Google Analytics, AWS, Azure, GCP

Soft Skills: Time management, Leadership, and Management, Project Management, Product Management, problem-solving, Negotiation, Decision-making, Documentation and Presentation, Customer Relationship Management (CRM), Verbal Communication

Operating System: Windows, Linux

WORK EXPERIENCE

Clairvoyant, USA | Business Analyst

Feb 2024 - Present

- Assisted in developing 10+ business process maps and workflows, streamlining operations, and identifying automation opportunities that improved efficiency by 20%.
- Supported the implementation of cloud-based data solutions using AWS services, including CloudWatch and S3, leading to a 25% increase in data processing efficiency and a 15% reduction in infrastructure costs.
- Played a key role in data cleaning and manipulation, ensuring data accuracy and integrity across 95% of datasets, leading to more reliable analysis and reporting.
- Collaborated with senior analysts to design 15+ advanced Excel reports with pivot tables and complex formulas, delivering actionable insights that enhanced management decision-making.
- Utilized Jira and Confluence to manage 100% of tasks and documentation, enhancing project transparency and team communication.
- Supported data analysis initiatives using Python and SQL, cleaning and manipulating over 500,000 rows of data, delivering visual insights that led to a 30% improvement in decision-making processes.
- Assisted in creating Power BI dashboards to visualize large datasets, improving data-driven decision-making by 40% for the team.

CueTech Systems, India | Business Analyst

Apr 2019 - Aug 2022

- Employed Waterfall and SDLC methodologies for project execution, incorporating Storyboards as a technique for requirements gathering.
- Documented project artifacts such as Stakeholders Analysis, Business Requirement Document (BRD), Functional Requirement Document (FRD), Test cases, and Test Plans.
- Performed impact analysis and document analysis on existing systems and documents respectively to define business rules for the new solution.

- Scheduled meetings with developers, system analysts, and testers to collaborate on resource allocation and project completion using MS Project.
- Built the strategic dashboard using Power BI to build the forecasting target and the sales strategy to achieve the goals.
- Created Technical/Functional Requirement Documents to guide the design team in building applications based on User Stories.
- Refined and input business requirements in the HP Quality Center for traceability to test requirements.
- Designed and developed Use Cases, Use Case Diagrams, and Activity Diagrams using UML.
- Wrote SQL queries for data mapping and data integration into the new centralized.
- Performed critical business analysis in areas of operations and revenue cycle management, and made recommendations to Management, and secured project approval.

EDUCATION

Master in Information Systems | Stevens Institute of Technology, Hoboken, NJ

Bachelor in Information Technology | JNTUA, Anantapur, AP
