EDUCATION

Arizona State University

Biology (BS)

Lake Havasu City, AZ

Graduate May 2016

Grand Canyon University

Secondary Education (MS)

Phoenix, AZ

Graduate January 2018

WORK EXPERIENCE

STEM Focused Large Language Model Analyst

Remote

April 2024 to present

Applied domain knowledge in chemistry and biology to validate and categorize scientific content for AI training purposes.
Utilized annotation platforms to tag images, text, and structured data in accordance with project guidelines.
Provided feedback to data science teams on annotation schema improvements.
Detailed editing in LLM data validation to align towards the uphold of policies, privacy, and content quality.
Collaborating within teams to align project toward high quality product that exceeds vendor expectations.

Middle School Science Teacher

Lake Havasu City, AZ

August 2016 to May 2020

January 2022 to Oct 2022

Prepared, presented, and facilitated lectures as assigned.
Graded homework and exams as required.
Assisted in preparation and distribution of course materials and exams.
Prepared and monitored laboratories for student use and cleanup following each laboratory.
Maintained office hours and tutored students as needed.
Extra curricular activities: STEM Club, Yearbook Club, Mentor/Mentee program, softball coach.

High School Chemistry Teacher

Spring, TX

August 2020 to January 2022

Designed and delivered engaging chemistry lessons aligned with NGSS standards.
Developed hands-on lab experiments and safety protocols.
Integrated technology tools to enhance STEM instruction and accommodate diverse learning styles.
Collaborated with interdisciplinary teams to implement STEM enrichment programs and cross-curricular projects.

Chemistry Professor's Assistant

Lake Havasu City, AZ

January 2016 to May 2016

Assisted with curriculum development.
Prepared, presented, and facilitated lectures as assigned.
Graded homework and exams as required.
Assisted in preparation and distribution of course materials and exams.
Prepared and monitored laboratories for student use and cleanup following each laboratory.
Maintained office hours and tutored students as needed.

Senior Thesis-Elementary STEM Education

Lake Havasu City, AZ

August 2015 to May 2016

Created lectures, worksheets and experiments to enhance elementary STEM education.
Delivered complex science ideas to a level that elementary students could comprehend.
Conveyed learning objectives to volunteers who facilitated with lectures and experiments.
Weekly meetings with advisor to determine goals and expectations.
Tested students on key concepts from before and after participation in the STEM student organization.

PUBLICATIONS AND SEMINARS

Hollinshead, S.; Nangreave, R. C. Enhancing elementary school STEM education with a two-year Partial Immersion Model. *CHED Abstracts ACS National Conference San Diego 2016*.

Hollinshead, S.; Nangreave, R. C. Enhancing elementary school STEM education with a two-year Partial Immersion Model. *J. Chem. Ed.*, in submission.

Improving undergraduate STEM education through design and implementation. *J. Chem. Ed.*, in submission.

Undergraduate poster presentation at ACS San Diego, Ca 2016

ADDITIONAL EXPERIENCE

Elementary Science Volunteer

Judged and scored elementary science fair projects.
Created and participated in an event for the first Science Olympiad held between the elementary schools in the Lake Havasu Unified School District.

Radio Interview

Interviewed by 106.3 KNTR on ASU Lake Havasu involvement in STEM education in local elementary school.

Chelsea Hicks Foundation

Organized an event to receive donations for the children in the terminally ill ward at Doernbecker Hospital in Portland, Oregon.
