Professional Summary

Clinical research professional with focused experience in clinical data management, regulatory compliance, and database coordination across early and late-phase trials. Skilled in EDC systems, data cleaning, protocol compliance, and cross-functional collaboration. Proven ability to maintain data integrity and support the full lifecycle of clinical trials in oncology and public health settings.

Education

Indiana University Richard M. Fairbanks School of Public Health

Master of Public Health (MPH), Epidemiology | GPA: 3.9 | Dec 2024

Emory University

Bachelor of Arts in Human Health and Chemistry | GPA: 3.8 | May 2022

Professional Experience

IU Melvin and Bren Simon Comprehensive Cancer Center

Clinical Data Coordinator | May 2024 – Present; Aug 2022 – Aug 2023

- Maintained clinical trial databases in oncology studies, ensuring accuracy, completeness, and protocol alignment through data cleaning and query management to resolve discrepancies.
- Collaborate with CRAs and sponsors to ensure clean data and compliance with protocol and regulatory requirements during early trial phases.
- Supported creation of data management documentation and contributed to study close-out deliverables.
- Support ongoing study start-up activities by maintaining regulatory documentation and contributing to study readiness tasks.

Clinical Research Specialist | Aug 2023 – May 2024

- Opened and coordinated site activation for industry-sponsored Phase I/II oncology trials, ensuring submission of essential documents and regulatory approvals..
- Prepared and submitted regulatory packets to IRBs; tracked submission timelines and addressed queries to support timely activation.
- Liaised with sponsors, investigators, and site teams to resolve issues and maintain study timelines.
- Tracked study milestones, participant enrollment, and deliverables to support continuous quality improvement.

IU Health Methodist Hospital, Infection Prevention Associate | Jan 2024 – Dec 2024

- Managed state-mandated communicable disease reporting using NBS and Vigilanz systems.
- Conducted audits of hospital infection data, ensuring accuracy and adherence to reporting standards.
- Contributed to hospital infection prevention strategy through data validation and protocol evaluation.

CDC Foundation, Drowning Prevention in Sub-Saharan Africa Intern | May 2022 – Aug 2022

- Conducted data analysis on unintentional injury (drowning) across Ghana to inform public health strategies into communication content for World Drowning Prevention Day.
- Contributed to global public health advocacy through research, analysis, and stakeholder reporting.

Certified in Public Health (CPH) | National Board of Public Health Examiners (NBPHE #21894)
