## PROFESSIONAL SUMMARY

Data Analyst with 4+ years of experience in Business Intelligence, Data Analytics, Business Analytics, Data Visualization, Data Modeling, ETL, Reporting Automation, Dashboard Development, and Process Improvement. Proficient in Power BI, Tableau, SQL, Python, DAX, Power Query, Power Automate, Power Apps, Azure ML, SAP ERP, and REST APIs. Experienced in data integration, data validation, KPI reporting, predictive analytics, stakeholder collaboration, business requirements gathering, and translating complex datasets into actionable business insights. Proven ability to improve reporting efficiency, data accuracy, and operational decision-making.

---

## PROFESSIONAL EXPERIENCE

### Data Analyst – Power BI — HCL | Remote Nov 2024 – Present

- Delivered 35+ interactive **Power BI dashboards** using **DAX, Power Query, and Star Schema data models**, integrating predictive insights from Azure ML through REST APIs to support executive decision-making across multiple business functions.
- Built and deployed **machine learning classification models** (Decision Tree and KNN) in Python and Azure ML for customer segmentation and churn prediction, integrating results into Power BI and Tableau dashboards.
- Architected ETL pipelines connecting SQL databases, Excel, and REST APIs, streamlining data integration and reducing dashboard refresh time by 60%.
- Developed **forecasting models** and trend analysis dashboards supporting inventory planning, pricing optimization, and business forecasting.
- Engineered Power Apps and Power Automate workflows that automated operational data collection, reducing manual data entry by 70%.
- Implemented Row-Level Security (RLS) models in Power BI and Tableau, with Power Automate governing role validation and access approval workflows.
- Performed **data validation, data quality checks, and root cause analysis** to ensure reporting accuracy exceeded 99%.

### Operations Data Analyst — Cambrian Bio-works | Bangalore, Karnataka, India Jan 2023 – Dec 2023

- Led cross-functional collaboration** between engineering, quality, and operations teams to define business requirements and implement an SAP-integrated inventory solution that reduced processing time by 35% and achieved 99% data accuracy.
- Partnered with **business stakeholders to gather reporting requirements, define KPIs**, and translate business needs into technical dashboard solutions.
- Developed KPI-driven dashboard components to evaluate product quality performance, increasing visibility and internal decision clarity by 40%.
- Configured SQL-driven data pipelines and automated input rules for operational decision-making, accelerating data processing by 45% and supporting real-time evaluation cycles.

### Business Analyst — SV Interior Pvt. Ltd. | Hyderabad, India Mar 2022 – Dec 2022

- Identified** supply chain bottlenecks through SQL analysis and KPI reporting, reducing lead times by **25%** and improving inventory planning
- Standardized reporting documentation, business processes, and data governance practices across departments.
- Designed product-facing dashboards for procurement and resource planning, enabling 15% better resource utilization and faster strategic decision cycles among senior stakeholders.
- Produced KPI dashboards and trend analyses to optimize inventory planning by 40% and improve supply chain decisions.

---

## EDUCATION

### Master of Science, Management Information Systems

University of Houston — Houston, TX | CGPA: 3.94 | Dean's List, all semesters

### Bachelor of Technology, Electronics and Communication Engineering

Vardhaman College of Engineering — Hyderabad, Telangana, India | CGPA: 3.5

---

## SKILLS

Python, Java, SQL, Power BI, Tableau, DAX, Power Automate, Power Apps, Azure ML, ETL, Data Warehousing, SAP ERP, Predictive Analytics, Business Intelligence, Data Mining, Dashboard Development, Agile Methodologies, AWS Cloud Computing, Generative AI Development, Cloud Infrastructure.

---

## CERTIFICATIONS

- AWS Certified Cloud Practitioner — September 2025 | Python Data Structures — Coursera, June 2022
- Self-Driving Cars — Coursera, February 2022 | Google Ads for Beginners — Coursera, January 2021
