

Sharath Rama

Senior Data Engineer

Sunnyvale, CA | (408) 210-2771 | rama.sharathchandra91@gmail.com | 

Professional Summary

Seasoned Senior Data Engineer with 10+ years of experience designing and optimizing large-scale data pipelines and architectures. Proficient in leveraging cloud technologies, including AWS and Apache Spark, to drive business insights, improve scalability, and reduce operational costs. Expertise in ETL automation, dimensional modeling, and real-time data processing, with a proven track record of delivering TB-scale data solutions and achieving significant cost and performance improvements. Adept at collaborating with cross-functional teams to ensure data reliability, quality, and actionable reporting.

Intuit

Aug 2023 - Present

Senior Data Engineer

- Designed and implemented a multi-terabyte sales data mart leveraging AWS Redshift and PySpark, enabling real-time insights for executive dashboards and improving reporting speed by 40%.
- Automated complex ETL workflows using Apache Spark and Airflow, reducing manual intervention and operational costs by 20%.
- Optimized and migrated legacy pipelines to serverless solutions such as AWS EMR Serverless, reducing costs by 20% and cutting execution times by 30%.
- Led regular code reviews, established best practices, and introduced automated testing frameworks, reducing data pipeline failures by 35% and enhancing team efficiency.

Thomson Reuters, HPE, Hanover Insurance

Dec 2019 - Feb 2023

Senior Data Engineer

- Implemented a new ETL infrastructure leveraging internal ETL framework, improving data processing accuracy by 15% and enabling real-time reporting for business-critical decisions.
- Designed and developed scalable data pipelines with Apache Spark to process 2x increases in data volume without performance degradation.
- Migrated on-premises ETL workflows to AWS, incorporating S3 and EMR, reducing ETL execution times by 50% and operational costs by 25%.
- Analyzed complex datasets using Spark SQL to extract actionable business insights, enabling a 10% increase in sales reporting accuracy.
- Led the migration of ETL processes from a legacy framework to a modernized system, achieving a 70% reduction in job run times and ensuring better scalability for future growth.

Virgin Media
Data Engineer

Feb 2014 - Dec 2019

- Designed and implemented efficient ETL pipelines using Informatica Power Center and AWS S3, enabling seamless ingestion and transformation of multi-terabyte datasets.
- Automated ETL workflows using Python scripts and scheduling tools, reducing pipeline run times by 40% and cutting operational costs by 30%.
- Developed complex Oracle stored procedures to streamline data refresh processes, reducing manual intervention and improving data accuracy.
- Designed scalable data ingestion logic for extracting data from diverse source systems, enabling faster and more reliable downstream reporting.
- Collaborated with cross-functional teams to optimize data storage and retrieval processes, resulting in a 25% increase in overall system efficiency.
- Conducted performance tuning on ETL jobs and Oracle stored procedures, improving execution speed and reducing resource consumption by 20%.

EDUCATION

Master's in Data Science and Engineering, BITS Pilani, India (2021-2023).

Achieved distinction with coursework in Big Data Analytics and Machine Learning.

Bachelor's in Computer Science and Engineering, KITS Warangal, India (2008-2012).

Specialized in data engineering, database management, big data technologies, and data analytics, with a strong foundation in data structures, algorithms, and distributed systems.

SKILLS

Data Engineering & Big Data: Apache Spark, Hadoop, Kafka, Databricks, AWS Redshift

Programming & Scripting: Python (Pandas, PySpark), Advanced SQL, Shell Scripting

ETL, Orchestration & Modeling: Apache Airflow, Informatica Power Center, Dimensional Modeling, CI/CD Pipelines

Cloud Technologies: AWS (S3, EMR, Redshift, Athena, EC2)

Database & Analytics: Oracle, PostgreSQL, Spark SQL

CERTIFICATIONS

AWS Certified Cloud Practitioner

AWS Certified Developer - Associate
