EDUCATION

Seattle University <i>Master of Science in Computer Science</i> Coursework: Artificial Intelligence, Software Engineering, Cloud Computing, Software Architecture & Design, Testing & Debugging, Software as a Service, Computer Network, UI/UX Design	Sep 2023 - Jun 2025 GPA: 3.7
Savitribai Phule Pune University <i>Bachelor of Engineering in Computer Science</i> Coursework: Data Structures, Java, Database Management, Data Analytics, Machine Learning, Python Programming	Aug 2018 – Jul 2021 GPA :9.3

WORK EXPERIENCE

LMP <i>Software Engineer</i> Created an automated one-click testing tool using Python scripts, enabling rapid end-to-end testing and reducing deployment bottlenecks. Streamlined partner onboarding by automating data and workflow processes with Python and Django, eliminating repetitive manual tasks and improving efficiency.	Seattle, USA <i>Aug 2025-Present</i>
Seattle University <i>Software Developer Assistant</i> - Enhanced web application performance by 44% through front-end optimization using JavaScript, HTML, and CSS, improving user experience for 1K+ users. - Performed manual and regression testing to verify accessibility, SEO, and user experience improvements. Collaborated with cross-functional teams to translate data insights into actionable design and content updates.	Seattle, USA <i>Oct 2023 – June 2025</i>
Accenture <i>Application Development Analyst</i> - Improved transaction security by 70% by leading the integration of token-based authentication into the billing platform through custom backend development and secure data handling practices. - Increased reporting efficiency by 25% by building automated reporting workflows and optimizing complex SQL queries within a data-driven enterprise platform. - Resolved production issues 40% faster by debugging logs, tracing exceptions, and coordinating fixes via ServiceNow. - Delivered presentations to senior leadership, increasing project visibility by 30% & performed code reviews. - Managed end-to-end development, testing, and production deployment in collaboration with cross-functional teams.	Pune, India <i>Nov 2021 - Aug 2023</i>
Incentius <i>Software Engineering Intern (Data)</i> - Developed automated ETL workflows using Python, Pandas, NumPy & SQL, streamlining data workflows, reducing manual work by 70%. - Built SQL models for data extraction and integration, enhancing ERP data accuracy. - Collaborated with teams to analyze data and produce actionable insights, improving operations by 20%. - Authored comprehensive technical documentation, reducing onboarding time for new hires by 40% and providing training.	Pune, India <i>May 2021 - Nov 2021</i>

PROJECTS

Campus Meetups – Networking Platform <i>TypeScript, Node.js, Express, MongoDB, Mongoose, Agile Methodology</i> - Designed and developed a customer centric scalable web platform for SeattleU students, increasing engagement by 30%. - Defined and implemented scalable RESTful APIs using Node.js & Express.js, reducing backend latency by 25%.
Rental Booking Platform <i>C#, .NET Core, ASP.NET MVC, Web API, SQL Server, JavaScript, HTML, CSS</i> - Developed and deployed a full-stack rental booking system that enabled secure search, booking, and management of listings for 1,000+ users. - Improved backend performance by 35% by designing and implementing multi-tier architecture and REST APIs, adhering to Object-Oriented and SOLID design principles.

SKILLS

Programming Languages: Python, Java, TypeScript, JavaScript,C++, SQL Frameworks & Libraries: Node.js, Express.js, React, .NET Core, ASP.NET MVC Databases: MySQL, PostgreSQL, MongoDB, SQL Server Cloud & Infrastructure: AWS (Lambda, S3, EC2, RDS, CloudWatch), Azure, Serverless Architecture, CI/CD Testing & Tools: Postman, JUnit, Selenium, Pytest, Swagger, Git, ServiceNow, Tableau, PowerBi Web & API Development: RESTful APIs, Microservices, Authentication & Authorization, JSON, HTML5, CSS3

EXTRACIRRCULAR

- Delivered a winning presentation on BCI research at a national competition, engaging over 200 attendees. - Led 10+ cultural events, managing 30+ students and logistics for audiences of 300+, building strong team coordination.
