WORK EXPERIENCE

Data Analyst | Mindset2Money, Generation Wealth Conference | Chicago, IL

Jun 2026 - Present

- Gave leadership real-time dashboard visibility into event performance for the first time, measured by a live registration-tracking system covering 200 registrants, by using Claude to accelerate the build of a Google Sheets-based reporting environment with VLOOKUP/XLOOKUP and Pivot Tables from scratch.
- Cut manual tracking effort by 5 hrs/week, measured by eliminating a fully manual copy-paste process, by automating a speaker and marketing tracker in Google Sheets using Pivot Tables and formula-driven automation.
- Kept leadership's trust in the numbers intact, measured by 20 mismatches caught over 4 weeks before reaching leadership, by conducting variance analysis between two reporting systems weekly, investigating discrepancies to root cause via VLOOKUP, and coordinating fixes with cross-functional partners over Slack.

Business Development & Analytics Intern | Wakanaka Business Solutions | Zambia

Jun 2026 - Jul 2026

- Partnered with leadership to gain visibility into strategy execution for the first time, measured by a KPI dashboard tracking 18 metrics across 3 business areas, by using Claude to speed up the build of a systematic Google Sheets tracking system with VLOOKUP.
- Replaced an inconsistent, subjective evaluation process, measured by a standardized 3-dimension scoring framework (accountability, precision, professional etiquette), by designing and tracking the system in Google Sheets and ClickUp.
- Prioritized high-value sales opportunities for the team, measured by 41+ active sales records segmented by industry, by structuring and maintaining contact data in Apollo.

Business Analytics & Strategy Intern | Global Stratos | Raleigh, NC

Sep 2025 - Feb 2026

- Partnered across finance, business, and government stakeholders to build one shared source of truth, measured by consolidating 9 scattered data sources, by building a KPI framework using VLOOKUP and Pivot Tables in Excel.
- Got a new initiative approved and adopted as the team's standard measurement framework, measured by approval within about 2 weeks, by documenting data sources and authoring the requirements document and business case in Asana, using ChatGPT to gather and organize notes.
- Cut reporting time by 20–25% and surfaced performance trends for leadership, measured by replacing a slow manual process, by using ChatGPT to generate ideas and insights while rebuilding the reporting pipeline as an automated Tableau dashboard.

Business Operations Analyst | Sri Mahaganapathy Hardwares | Coimbatore, India

Jan 2024 - Jul 2025

- Gave leadership real-time visibility into revenue and financial performance, measured by a ~30% cut in reporting time, by building a Tableau financial reporting dashboard to replace manual processes.
- Identified and resolved inventory discrepancies through root cause analysis, measured by a ~20% reduction in stockouts and overstock across 1,500–2,000 products, by building a dedicated Tableau inventory-reconciliation dashboard.
- Improved pricing and promotional decisions, measured by a ~15% improvement in inventory and discount decisions, by mining purchase-pattern data across 9,000+ customers using SQL, Excel, and Python

SKILLS

SQL, Excel (Pivot Tables, VLOOKUP/XLOOKUP), Power BI (DAX), Tableau, Python, Google Sheets, R, PowerPoint, AI-Assisted Analytics (Claude, ChatGPT), Financial Reporting, Variance Analysis, Data Reconciliation & Verification, KPI Development

PROJECTS

Applicant Withdrawal Prediction, Teach for America - R, Machine Learning

- Built a predictive model in R to flag at-risk applicants, tested against 10+ methods and a severe data imbalance problem. It is now in active use on 74,000+ records.

Vendor Intelligence Dashboard - Power BI, DAX

- Built a Power BI dashboard using custom DAX measures, analyzing \$52M in vendor revenue and margins across 16 vendors and 6 years of data.

EDUCATION

MBA in Business Analytics | Illinois Institute of Technology, Stuart School of Business

Aug 2024 - May 2026

GPA: 3.77/4.0

BE in Biomedical Engineering | PSG College of Technology

Nov 2020 - May 2024

CGPA: 8.67/10.0
