

Sowkya Kammampati

Data Analyst

sowkya@careeremail.net | (201) 448-6497 | USA | [LinkedIn](#)

Summary

Results-oriented Data Analyst with almost 3 years of experience in data collection, analysis, and visualization to drive business insights. Proficient in advanced statistical methods, data modeling, and developing actionable reports for decision-making. Strong background in working with tools like Python, SQL, Power BI, and cloud platforms (AWS, Azure). Skilled at transforming complex data into clear, meaningful information and collaborating with cross-functional teams to deliver impactful results. Demonstrates a keen ability to optimize data processes and improve business performance through data-driven strategies.

Technical Skills

- Programming & Scripting:** Python (Pandas, NumPy, scikit-learn, Matplotlib, Seaborn, Statsmodels, SciPy), R, SQL (CTE, Window Functions), Excel (Advanced Formulas, VBA, Macros)
- Data Management & ETL:** AWS Glue, Azure Data Factory, AWS S3, Azure Data Lake, Azure SQL, SQL Server, dbt, Apache Airflow, Apache NiFi, Talend, Alteryx, SSIS
- Data Visualization:** Power BI (DAX), Tableau (LOD), Looker, AWS QuickSight, QlikView/Qlik Sense
- Cloud & Databases:** AWS (Athena, Redshift, RDS, SageMaker), Azure (Synapse, Cosmos DB, Functions), Snowflake, Databricks, Salesforce CRM
- Statistical Analysis & Modeling:** Logistic Regression, Random Forest, XGBoost, LightGBM, Cohort Analysis, RFM Analysis, A/B Testing
- Tools & Technologies:** Git/GitHub, Jira, Confluence, Power Automate
- Methodologies:** Agile, Scrum, SDLC

Professional Experience

Data Analyst, PNC Financial Services Group 01/2025 – Present | Remote, USA

- Led Customer Lifetime Value (CLV) Prediction project by integrating customer & transaction data from AWS S3 with SQL (CTEs, Window Functions) and AWS Glue, reducing query time by 40%.
- Automated ETL pipelines using Glue, Airflow, and Lambda with schema validation rules, reducing pipeline errors by 30%.
- Conducted Cohort & RFM analysis to identify profitable customer segments, improving high-value targeting by 22%.
- Developed Python pipelines using Pandas and NumPy for feature engineering and outlier detection and applied correlation and variance analysis to improve the reliability of CLV input variables and reduce data noise.
- Collaborated with Agile teams across Marketing, CRM, and Data Science to define KPIs and deliver insights.
- Built an interactive Power BI dashboard showing CLV trends by geography product and acquisition channel and used DAX to create weighted metrics customer flags and period-over-period comparisons which increased stakeholder engagement by 35%.

Associate Data Analyst, HSBC 01/2022 – 12/2023 | Remote, India

- Designed and optimized ETL workflows using Azure Data Factory, NiFi, and SSIS to process 2.5M+ records from Salesforce CRM & financial systems into Snowflake.
- Applied statistical analysis and ML models (Logistic Regression, Random Forest) in R, achieving 82% accuracy in predicting loan defaults.
- Automated data validation frameworks (null handling, schema enforcement, duplicate detection) in ADF & Snowflake, reducing quality issues by 35%.
- Built Tableau dashboards with LOD expressions to monitor credit risk KPIs, improving regional forecasting by 28%.
- Partnered with credit risk and IT teams in Agile sprints, managing tasks in Jira and using GitHub for version control.
- Built an interactive Tableau dashboard showing approval rates, default trends, and applicant risk segments and used Level of Detail (LOD) expressions to isolate default rates by income group which improved regional forecasting by 28%.
- Partnered with credit risk and IT teams in Agile sprints, managing tasks in Jira and using GitHub for version control.
- Conducted exploratory data analysis (EDA) with visualization libraries (Matplotlib, Seaborn) to uncover patterns in loan performance.

Education

Master of Science (M.S.) in Data Science Sacred Heart University	01/2024 – 03/2025 Connecticut, USA
Bachelor of Technology (B.Tech) in Computer Science TKR College of Engineering and Technology	08/2019 – 04/2023 Hyderabad, India
