Education

St. Francis College, Masters in Information Technology

Jan 2024 – Aug 2025

- GPA: 3.0/4.0
- **Coursework:** Operating System, System Analysis and Design, Project Management, Database Management.

Experience

Software Engineer, Wipro – Bangalore, India

Oct 2021 – Sep 2023

- **Conducted performance testing** using LoadRunner to evaluate system reliability, scalability, and performance under various load conditions.
- Leveraged Dynatrace and Splunk for **real-time monitoring**, log analysis, and **troubleshooting** of system performance issues.
- Managed testing artifacts and **project documentation** using Confluence and tracked project progress/issues in Jira.
- Automated **test execution** and **deployment** workflows using Jenkins, ensuring efficient CI/CD pipeline integration.
- Utilized DevTest Platform to create and manage **virtualized test environments** and mock services for comprehensive test coverage.
- Identified and reported performance bottlenecks and other system issues, coordinating closely with developers and stakeholders for timely resolution.

Projects

Stock Market Analysis Using ARIMA Model

2021

- Preprocessed large datasets of historical stock prices by handling missing values, outliers, and ensuring data **normalization** for accurate model training.
- Optimized ARIMA model parameters (p, d, q) to achieve high prediction **accuracy** and validated the model using metrics like Mean Absolute Error (MAE) and Root Mean Square Error (RMSE).
- Conducted detailed analysis using statistical tools and **visualizations** to uncover trends, seasonality, and patterns in stock market data.
- Leveraged tools like Python, Pandas, NumPy, Matplotlib, and Statsmodels for data analysis and model development.
- Provided actionable insights into stock market trends that can support investment strategies and risk assessment.

Technologies

Languages: Python, Java, C, SQL, HTML, CSS.

Frameworks: Spring, React js.

Tools: LoadRunner, Confluence, Splunk, Jira, Performance Center, AWS, Windows, Linux.

Certifications

Certifications: AWS Certified Developer - LinkedIn Learning

Jan 2024
