

SOFTWARE QA ENGINEER

SUMMARY

- Enthusiastic QA Engineer with 5+ years of experience specializing in testing web based and mobile applications
- Well versed with Software Development Life Cycle (SDLC), Software Testing Life Cycle (STLC), logging and tracking defects
- Working knowledge of Agile/Scrum methodology
- Writing and auditing Test Plans and Test Cases based on User Stories, PRDs, Test Scenarios, and Standard Operating Procedures
- Research-oriented, self-motivated, fast learner with excellent communication skills
- US Citizen

TECHNICAL SKILLS	
Operating Systems	Windows, macOS, iOS, UNIX/Linux, Android
Technology	HTML, JavaScript, CSS, SQL
Defect/Test Management	Jira, Xray, Confluence, Buganizer, Test tracker
RDBMS	Oracle, MySQL,PostgreSQL
Test Automation	Selenium WebDriver, Cucumber, IntelliJ, Eclipse, Git, GitHub
Testing Tools	Chrome DevTools, Android Studio, Xcode, ADB, Postman, Swagger, Charles Proxy

WORK EXPERIENCE

Software Development Engineer in Test, Numpy Ninja (Volunteer)

(March 2024- Present)

- Responsible for writing Gherkins in BDD (Behavior Driven development) format.
- Performed BDD (Behavior Driven Development) with Data Driven Test Automation Framework for LMS,JOBS APIs testing using Cucumber Features, Scenarios and Step Definitions in Gherkins format and generated cucumber reports in Json, HTML formats.
- Worked with Eclipse IDE, Maven, Selenium Web driver, TestNG.
- Implemented automation testing framework using Maven, TestNG, Selenium WebDriver.
- Performed web application automation testing using Selenium Webdriver, Java, Maven, TestNg for DS ALGO application.
- Implemented Page Object Model framework to reduce code duplication and improved test case maintenance.
- Performed Data driven Automation testing using Selenium Webdriver and Java.
- Used Maven, BDD cucumber, TestNG which reduced the test execution effort.
- Debug automation scenarios to find the root cause of issues.

QA Engineer, Infosys, San Jose, CA Client: Google

(Dec 2021- Feb 2024)

- Conducted SaMD integration testing using Google devices
- Devices include Pixel watch, Pixel watch-2, Sense, Sense-2, Charge-5 and Charge-6
- Worked on feature testing and bug verification on different Fitbit devices
- Conducted Mobile testing on iOS and Android platforms
- Created regression Test Suites for various new features
- Reviewed test plans, created test cases and executed functional testing and smoke testing
- Reviewed Figma UI designs and MDR compliance documents to understand requirements

- Generated and extracted diagnostic reports of mobile services using XCode (screenshots, screen recordings and collect logs)
- Worked closely with the project management and development team following Agile process with 2-week Sprints
- Utilized Confluence and Jira for collaboration and issue tracking
- Validate the issue against different builds
- Fetched the new builds/apk files and installing them on Android devices
- Migrated test cases from Jira to Test Tracker
- Utilized Jenkins for deployments and test account creation

Software QA Engineer, Pranacoders Inc., Austin, TX

(June 2019–Dec 2021)

- Tested multiple web and mobile applications on a variety of platforms (iOS, Android, macOS, Windows including management system for public transportation, assessment control tool for educational institutions, e-commerce portal, and others)
- Reviewed and analyzed functional requirement specifications, workflow documents, use cases, and developed test documentation for every application under test
- Worked closely with the project management and development team following Agile process
- Developed and executed test cases, using Xray to manage test cases, test executions, and capture test results
- Created and ran SQL queries to validate data integrity in the backend
- Developed sets of RESTful API tests to validate business logic and performance parameters, based on API documentation (Swagger) and executed them via Postman runner
- Participated in test automation: ported test cases into Cucumber format, provided XPath expressions, wrote test scripts using predefined steps and created required Selenium support code in Java for Cucumber
- Utilized Java-Cucumber-Selenium WebDriver framework, IntelliJ as the development environment, GitHub as version control tool, and Jenkins for monitoring test automation jobs and test reports
- Conducted testing of mobile versions of the applications on iOS and Android platforms
- Performed compatibility testing on real devices as well as on emulators and simulators
- Generated and extracted diagnostic reports of mobile services using ADB commands (screenshots, screen recordings and collect logs)
- Performed cross-platform testing of the mobile application using Android Virtual Device Emulator, Device Farm, and real devices
- Performed cross-browser (Chrome, Safari, Firefox, IE) and cross-platform (Windows, macOS) testing
- Identified, analyzed, and communicated defects discovered during testing, documented issues, and filed reports into a bug tracking system, participated in bug triage sessions to prioritize and escalate critical issues
- Took part in Daily Stand-Up, Backlog Grooming, Sprint Planning, and Sprint Retrospective meetings

QA Engineer, UTest

(2018–2019)

- Tested web-based and mobile applications for various customers
- Tested software programs to verify that the programs function according to the specifications
- Identified, analyzed, and reported defects, questionable functions, errors and inconsistencies in web applications
- Logged defects using uTest defect management system and written test summary reports.
- Executed test cases
- Provided detailed feedback on the quality of the applications

Support Technician, WI2WI Inc., San Jose CA

(03/2014 – 02/2015)

- Acted as a member of Technical Operations team supporting the system engineering
- Performed calibration using Litepoint IQwizard to write cal-data in the EEPROM of modules/SiPs
- Provided test procedure documentation: Datasheets, Application Notes, User Guides, FAQs, etc. and decreased test and calibration time by 15% using work simplification

EDUCATION

2011 BS in Public Management, Payame University, Bafgh, Iran
