

SUSMITA RAVULA

✉ ravulasusmita20@gmail.com | 📞 (737) 277-0434 | LinkedIn | 🐙 GITHUB

Professional Summary

Entry-Level Data Analyst with over 3 years of experience leveraging data to drive smarter decisions, efficiency, and growth. Expert in SQL, Python, and data visualization tools like Tableau and Power BI to analyze complex datasets and create actionable reports for cross-functional teams. Proven track record in analytical storytelling, extracting insights from large-scale datasets, and supporting data-driven decision-making in Agile environments. Dedicated to contributing to real-world projects through rigorous data cleaning, anomaly detection, and KPI benchmarking while ensuring data integrity and quality from day one.

Skills

Data Analysis & Reporting: Analytical Storytelling, KPI Benchmarking, Trend Analysis, Statistical Methods, Data-Driven Decision Support, Reporting Automation

Technical Stack: SQL (PostgreSQL, SQL Server), Python (Pandas, NumPy, Matplotlib), R, VBA, Advanced Excel, Snowflake

Visualization: Tableau, Power BI, Google Data Studio, Data Visualization Best Practices, Drill-down Analysis

Data Engineering: ETL/ELT Pipelines, Data Modeling, Schema Harmonization, Data Wrangling, Anomaly Detection, Metadata Management

Infrastructure & Cloud: AWS (S3, Redshift), Azure (ADF, Synapse), GCP (BigQuery), Oracle, MongoDB, REST APIs

Collaboration & QA: Agile Methodologies, Jira, Cross-functional Teamwork, GitHub, CI/CD, Unit Testing, Documentation

Work Experience

Data Analyst — CitiusTech, USA

Mar 2025 – Present

- Analyzes complex payer and member datasets to drive organizational growth and efficiency, contributing to real-world client projects through actionable insights and report generation.
- Collaborates with cross-functional teams including Data Engineers and Business Analysts to define mapping strategies and support data-driven decision-making.
- Utilizes SQL, Python, and Snowflake to strengthen data quality by 35%, ensuring high-performance reporting for downstream decision-makers.
- Developed and maintained ETL-driven Tableau dashboards to visualize denial trends and provider performance, reducing investigation time by 40% for operational teams.
- Implements advanced data cleaning and anomaly detection pipelines to automate quality checks across millions of records, reducing manual effort by 25%.
- Leverages analytical storytelling to communicate KPI benchmarks and turnaround times, enabling stakeholders to make smarter, data-driven decisions.
- Ensures HIPAA compliance and data integrity through metadata management and masking techniques within Snowflake and Tableau layers.
- Operates within an Agile framework using Jira to manage project tasks and ensure consistent delivery cycles for high-value analytics initiatives.

Junior Data Analyst — Persistent Systems, India

Jan 2021 – Jul 2023

- Analyzed high-volume clinical and payer datasets to create integrated reporting layers, resulting in a 30% improvement in data completeness.
- Cleaned and standardized datasets using Python and SQL to minimize discrepancies by 28%, ensuring consistent results in data-driven quality calculations.
- Built end-to-end analytical workflows and self-service dashboards in Tableau and Power BI, allowing stakeholders to monitor real-time trends.
- Reduced manual reporting time by 70% through the implementation of automated data collection systems and reporting strategies.

- Collaborated with product and clinical teams to validate data flows and define mapping logic, supporting effective cross-functional communication.
- Streamlined reconciliation processes by linking EDI transactions through optimized SQL pipelines, increasing matching accuracy by 40%.
- Leveraged statistical methods and patient stratification models to pinpoint care gaps, contributing to an 18% reduction in documentation errors.
- Supported account management and strategic initiatives by providing ad-hoc reporting and actionable insights to senior business partners.

Education

Texas A&M University–Corpus Christi, USA	May 2025
Master of Science in Computer Science	
Kakatiya Institute of Technology & Science, India	Jun 2021
Bachelor of Technology in Electronics and Communication Engineering
