

Vasu Lakhani

Los Angeles, CA, US | (213) 650-7715 | [Linkedin](#) | lakhanivasu2408@gmail.com

EDUCATION

California State University, Fullerton | Fullerton, CA, USA

Master of Science, Computer Science

Aug 2022 - May 2024

Coursework: *Advanced Database Management, Advanced Algorithm, Software Management, System & Software Standards, Computer System Architecture, and Mobile Development Programming*

P.P. Savani University | Surat, Gujarat, India

Bachelor of Technology, Information Technology

Aug 2017 - Jul 2021

Coursework: *Object-Oriented Programming, Operating System, Computer Networks, Web Application Development, Data Structures, Software Testing & Quality Assurance, and Design & Analysis of Algorithms*

TECHNICAL SKILLS

Programming Languages: Java, Python, C++, JavaScript, TypeScript, Swift, C#, Go

Frontend Technologies: HTML5, CSS3, Tailwind CSS, Bootstrap

Frameworks & Libraries: ReactJS, AngularJS, Redux, Express.js, ASP.NET MVC, .NET

Backend & APIs: Node.js, RESTful APIs, ASP.NET Web API, GraphQL

Databases: MySQL, PostgreSQL, MongoDB, DynamoDB

Cloud & DevOps: AWS (EC2, S3, Lambda, Amplify), Google Cloud Platform(GCP), Docker, Kubernetes

Tools & Platforms: Git, GitHub, Jira, Bitbucket, ESLint, ServiceNow

WORK EXPERIENCE

Software Engineer | **AirKitchenz** | Los Angeles, CA, USA

Sep 2024 - Present

- Developed a scalable web application using **ReactJS**, **Node.js**, and **AWS DynamoDB**, ensuring efficient and optimized data access
- Implemented **RESTful APIs** using **Node.js** and **Express.js** for seamless communication between the frontend and backend application layers
- Integrated **AWS S3** for secure and scalable image storage, reducing latency by 30% through efficient content delivery practices
- Followed **Agile methodologies** to consistently deliver high-quality software solutions on schedule, achieving a 95% on-time delivery rate
- Wrote unit/integration tests using **Jest** and **React Testing Library**, improving code reliability and reducing production issues by 25%
- Containerized applications using **Docker** and deployments with **Kubernetes**, ensuring seamless scaling and reliability of services

Student Assistant | **California State University, Fullerton** | Fullerton, CA, USA

Aug 2023 - May 2024

- Developed dynamic web apps using **JavaScript**, **ReactJS**, and **Node.js**, improving user experience for 5,000+ students
- Optimized backend processes with **AWS Lambda** and **GCP**, enhancing system performance by 25% through efficient coding
- Managed **MongoDB** and **SQL** databases, improving data retrieval speed by 40% with optimized queries and indexing
- Created **technical documentation** for seamless knowledge transfer, ensuring long-term system maintainability and team collaboration

Software Engineer Intern | **OOZEE Technologies** | Surat, Gujarat, India

Jan 2021 - Jan 2022

- Developed dynamic web applications using **C#**, **.NET**, **Razor Pages**, and **REST APIs** for communication between distributed systems
- Optimized database performance using **MySQL** and **Oracle**, improving query efficiency and data integrity by 20%
- Collaborated with **senior developers** to troubleshoot and resolve issues, ensuring secure coding practices and system reliability

Software Engineer Intern | **Arrow Infotech** | Surat, Gujarat, India

Feb 2019 - Oct 2019

- Automated data processing tasks using **Python**, reducing processing time by 60% and improving data analysis speed by 50%
- Applied **statistical methods** and **data manipulation** techniques to **analyze data** and improve decision-making processes

PROJECTS

Store Management Portal

- Developed a store management portal using **Java**, **SQLite**, and **XML** for inventory management, sales tracking, and user authentication
- Designed and implemented **RESTful APIs** to enable communication between frontend and backend systems for efficient data exchange
- Conducted unit testing and automated testing to ensure the reliability and functionality of the application for smooth operations

Movie Success Prediction Using Data Mining

- Implemented **Python-based data mining algorithms** to analyze historical movie data and predict success rates with high accuracy
- Created user interfaces using **Jupyter Notebooks** for stakeholders to interact with predictive models and visualize insights effectively

Farmers to Customers Direct Connect with Website

- Led the development of an **online platform** using **C#**, **.NET**, and **ASP.NET MVC**, connecting farmers directly with customers
- Enhanced **UI/UX** and backend functionality using **ASP.NET Web API**, achieving a 20% boost in customer satisfaction

Hospital Database Management System

- Developed a **user-friendly interface** for a hospital DBMS using **JavaScript** and **HTML**, optimizing data entry and retrieval processes
- Ensured reliability through comprehensive **testing and debugging**, enhancing performance, and minimizing errors for hospital operations
