

VENKATA SATYA SAI VARUN KOYYANA SENIOR SAP FIORI & ABAP DEVELOPER 5 YEARS EXPERIENCE Glassboro, NJ +1 856-652-3564 venkatasatya12111@gmail.com LinkedIn GitHub	
Professional Summary	SAP certified Fiori Developer with 5 years of hands-on SAP S/4HANA development and advanced expertise in SAPUI5, SAP HANA data modeling, OData services, and SAP BTP automation. Proven track record of designing and deploying scalable SAP solutions that enhance business operations and user experience. MS Computer Science candidate with demonstrated ability to translate complex business requirements into high-performance technical solutions while ensuring compliance with SAP development standards
Technical Skills	SAP & Analytics: SAP BTP, SAP S/4HANA (on-prem & cloud), SAP Fiori/Launchpad (Spaces/Pages), SAP RAP (managed/unmanaged), SAP CAP (Node/Java), SAPUI5 (freestyle & Fiori elements), OData v2/v4, SAP Gateway/SEGW, HANA & HANA Cloud (CDS, SQLScript, Calc Views), SAC (models & stories), BRFplus, BAPI/RFC, IDoc/ALE, Adobe Forms Languages: ABAP, JavaScript/TypeScript, SQL, Python, Java, HTML5, CSS, Node.js Frameworks: SAPUI5/Fiori (elements & freestyle), CAP, React (basics), Angular (basics), Vue (basics), FastAPI, Flask, Express.js APIs & Integration: REST/OData, SAP Integration Suite (CPI iFlows, adapters—HTTPS/SFTP/OData/SOAP), Destinations, Event Mesh, Webhooks, OAuth2/OIDC Developer Tools: Git, abapGit, gCTS/CTS+, Jenkins/GitHub Actions (CI/CD), VS Code, SAP GUI/ADT (Eclipse), SAP Build (Apps/Process Automation/Work Zone), Jira, Postman Quality & Performance: ATC/SCI, ABAP Unit, UI5 OPA5/QUnit, SAT, ST05, SQLM, Code Pushdown/Clean Core AI/ML (supporting): OpenAI APIs, Google Gemini, RAG patterns, scikit-learn, PyTorch (basics), Document processing (PyPDF2, python-docx), NLP, Prompt Engineering Cloud & Databases: SAP BTP (Cloud Foundry/Kyma), HANA Cloud, AWS/Azure basics, MongoDB, Neo4j, Firebase, PostgreSQL/MySQL (working) Libraries (Python): pandas, NumPy, Matplotlib
Professional Experience	Senior SAP Fiori & ABAP Developer Legend Biotech Jan 2025 – Present USA - Contributed significantly to the technical design of a mission-critical CAR-T tracking app on S/4HANA, building the core modules for logistics and delivery visibility. - Engineered complex, high-performance OData services from the ground up using ABAP CDS Views and Gateway, exposing critical logistics and delivery data to Fiori applications with optimized, sub-second response times. - Automated key stages of the Fiori deployment process on SAP BTP using Jenkins, helping to cut the team's release and testing cycle time by 40%. - Developed a robust and reusable backend service framework using the ABAP RAP model, improving the stability and data integrity of integrations with the S/4HANA core. - Worked closely with lab technicians to gather requirements and refine a mobile-first Fiori application, improving their daily task completion efficiency by 20%. - Tasked with optimizing the application suite, using SQL trace analysis to identify and fix bottlenecks, which cut average Fiori application load times by 35%. Senior SAP Fiori & ABAP Developer Infosys Limited Jan 2021 – Aug 2023 INDIA Client: Siemens AG, Germany - Delivered custom SAP S/4HANA solutions across Finance, MM, and SD modules, applying SAP Activate methodology to ensure on-time, on-budget project delivery with 98% defect-free deployments. - Configured and customized SAP Fiori applications, including launchpad setup, role-based access, and UI5 development to enhance user adoption by 30% and improve business process efficiency. - Optimized SAP HANA database performance through CDS view implementation and SQL query tuning, achieving 40% improvement in report execution times for critical business processes. - Developed OData services and REST APIs for seamless integration between SAP S/4HANA and third-party systems, enabling real-time data exchange and process automation. - Implemented quality assurance frameworks including automated testing, code reviews, and CI/CD pipelines, maintaining high code quality standards and reducing post-implementation issues by 35%. - Built strong stakeholder relationships with business users and technical teams, facilitating requirements gathering, solution design, and change management across international project teams. - Mentored and onboarded 3 junior developers and new team members, conducting code reviews, providing technical guidance on SAP development best practices, and accelerating their ramp-up time by 40%. SAP Fiori & ABAP Developer Coca Cola Jul 2019 – Dec 2020 INDIA - Supported SAP ERP implementation and configuration for order management and production efficiency initiatives, contributing to streamlined order processing workflows across 15,000+ users in North American operations. - Assisted in SAP Finance (FI/CO) module configuration including general ledger accounting, accounts payable and cost center management, supporting automated financial transaction processing and real-time financial reporting. - Collaborated with functional teams to gather business requirements and translate them into SAP configuration specifications, ensuring alignment between business processes and system capabilities. - Supported the development and testing of SAP Fiori sales reporting app that was intuitive for non-technical users, leading to a 40% faster adoption rate by the field sales team. - Supported go-live activities and post-implementation stabilization, participating in issue resolution and system optimization efforts to maintain 99%+ system uptime. - Assisted in implementing a framework of 20+ custom validation rules in SAP ECC, which significantly enhanced data integrity for all sales orders coming from the Fiori apps.
Education	Master of Science, Computer Science Sep 2023 – May 2025 Rowan University, Glassboro, NJ Bachelor of Technology in computer science May 2016 – Sep 2020 Vignan institute of information and technology

Projects

SAP BTP AI Orchestrator | Intelligent Business Assistant

- Architected an AI-powered business assistant on SAP BTP using FastAPI and microservices, which automated invoice and leave-report processing to improve HR and Finance workflow efficiency by 40%.
- Constructed a SAPUI5 Fiori UI and integrated SAP Integration Suite iFlows, enabling conversational process automation that reduced manual data entry for procurement and HR requests by 35%.

SkillSwap | ML-Driven Skill Matching & Recommendation Platform

- Built a full-stack web platform using Neo4j and MongoDB that connected users with complementary skills, leading to a 50% increase in successful skill exchanges among early adopters.
- Developed a machine learning recommendation engine with Python and Scikit-learn, delivering personalized skill suggestions that improved user engagement and successful match rates by 30%.

Real-time Operations Dashboard | SAP Analytics Cloud

- Designed and developed enterprise-wide operations dashboards in SAC, integrating data from 9+ business units to provide a unified view that reduced ticket resolution times by 20%.
- Managed the complete data lifecycle, from ETL processes to data modeling within SAC, ensuring high-quality data that improving accuracy of operational reporting to 99%.
