

VISHNU MANI DEEP ALA

Dallas, TX, USA • +1(945)-233-5853 • vishnu@aogjob.com • [LinkedIn](#)

SUMMARY

- Results-driven Business and Data Analyst with more than 3 years of experience in developing 50+ interactive dashboards in Tableau and Power BI, enhancing decision-making and reducing reporting time.
- Expertise in optimizing large datasets (1M+ records) through ETL automation, Python, and SQL, achieving a reduction in manual processing time and improving operational efficiency. Skilled in gathering business requirements, creating BRDs/FRDs, and leading UAT sessions to ensure deliverables align with stakeholder expectations.
- Adept at transitioning legacy systems to automated BI solutions, enhancing financial reporting, improving CRM accuracy, driving strategic alignment, and delivering measurable business impact.

EDUCATION

Master of Science in Business Analytics The University of Texas, Dallas	05/2024 TX, USA
Bachelor of Technology in Mining Machinery Engineering Indian Institute of Technology	04/2022 Dhanbad, India

PROFESSIONAL EXPERIENCE

Business Data Analyst, PTC, Boston, MA	05/2024 - Present
- Developed over 25 interactive dashboards and reports in Tableau, streamlining data-driven decision-making across departments. Achieved a 25% reduction in reporting time and a 30% increase in report accuracy. - Executed data cleaning, ETL automation, and performance optimization using Python and SQL, handling large datasets (1M+ records) and cutting manual processing time by 50%. Enhanced data integrity, efficiency, and database performance. - Spearheaded the development and implementation of dynamic Power BI dashboards, enhancing visualization of key financial performance indicators (KPIs). Improved dashboard functionality by 30% based on targeted feedback from finance stakeholders, facilitating a seamless transition from legacy SQL and Excel platforms to more robust, integrated reporting solutions. - Engaged directly with finance clients to meticulously understand their reporting needs, successfully planning and delivering comprehensive end-to-end financial reports and dashboard enhancements. Ensured high standards of data accuracy and relevance, handling large, complex datasets across various financial functions. - Conducted thorough data analysis, built dynamic client databases, and utilized Tableau for insightful reporting to identify key trends, supporting strategic decision-making and process improvements. Improved CRM accuracy and implemented lead generation strategies using HubSpot, Slack, and email, resulting in higher conversion rates.	

Business Data Analyst, United Health Group, Arizona USA	05/2023 - 05/2024
- Partnered with cross-functional teams to conduct in-depth data analysis and business intelligence reporting, delivering actionable insights that optimized cost efficiency, operational effectiveness, and patient outcomes. - Designed and implemented interactive Power BI dashboards, enhancing visualization of critical healthcare and financial KPIs, improving decision-making efficiency, and driving data-driven strategies. - Streamlined reporting and analytics processes by transitioning from legacy SQL and Excel systems to automated, dynamic reporting frameworks, achieving a 35% increase in operational efficiency. - Utilized advanced data modeling techniques and predictive analytics to forecast financial trends, optimize resource allocation, and support strategic decision-making. - Created compelling data-driven narratives and business presentations using Microsoft PowerPoint, effectively communicating complex insights to executive stakeholders and influencing organizational strategies. - Developed and maintained robust data pipelines and governance practices, ensuring high standards of data accuracy, integrity, and compliance for business intelligence and analytics initiatives.	

Business Analyst, Version 1, Bangalore, India	01/2021 - 07/2022
- Spearheaded stakeholder interviews and conducted comprehensive market research to ascertain business needs, culminating in the creation of meticulous Business Requirement Documents (BRDs) and Functional Requirement Documents (FRDs) using Microsoft Teams, Word, and JIRA. - Played a pivotal role in cross-functional team collaboration to develop strategic roadmaps and feature prioritization, crafting user stories for agile development teams and ensuring projects aligned with business objectives and deadlines. - Led User Acceptance Testing (UAT) processes and coordinated feedback sessions that enhanced product quality and met business standards, achieving a remarkable 95% user satisfaction rate post-product release. - Designed and implemented interactive dashboards and complex reporting solutions using Tableau and Power BI, significantly enhancing real-time decision-making capabilities and reducing response times to market changes by 25%. - Initiated and directed a customer-centric approach that revolutionized requirement gathering and project delivery processes, boosting the efficiency of reporting solutions and reducing project timelines by 80%.	

SKILLS & OTHERS

Methodologies: Software Development Life Cycle (SDLC), Agile/ Scrum, Waterfall, Kanban.
Documentations: FRD, BRD, SRS, Test Plan, User Guide, User stories, Use Cases.
Project Management Tools: MS Office Suite (MS Project, MS Excel, MS SharePoint, MS PowerPoint, MS Visio), JIRA, Confluence.
Analysis Skills: Data Analysis, A/B Testing, Hypothesis Testing, Cost/Benefit Analysis, Impact Analysis, GAP Analysis, Risk Analysis, SWOT Analysis.
Languages: SQL, Python, SAS, R, SCALA.
BI & Data Management Tools: MSSQL Server, MySQL, Tableau, Microsoft Power BI, Snowflake, SSRS.
Other Tools: CRM, HubSpot, Slack.
Cloud: Docker, AWS (Redshift, Athena, Glue, PageMaker, S3), Azure (Databricks), GCP
Soft Skills: Sprint planning, Stakeholder management, Project management, Conflict resolution, Time management, Leadership, Problem-solving, Negotiation, Decision-Making, Documentation, Presentation, Verbal communication.
Machine Learning: NLP, Hugging Face, LLM Models, LangChain, Supervised Learning, Unsupervised Learning, GenAI

PROJECTS

Pfizer's Strategic Performance Analysis (2018-2021)
- Conducted a comprehensive analysis of Pfizer's reports using advanced data analytics and statistical software to ensure data integrity and extract key insights. - Identified a 10% revenue growth and a 5% increase in operational efficiencies, demonstrating the impact of the COVID-19 pandemic on Pfizer's strategic and financial performance. - Synthesized findings into actionable recommendations and used data visualization tools to effectively communicate complex data to stakeholders, aiding decision-making. - Highlighted Pfizer's rapid COVID-19 vaccine development, which led to a 30% increase in trial enrollments, showcasing strategic adjustments that influenced corporate strategy during the pandemic.
Predicting Restaurant Ratings on Yelp
- Led the analysis of Yelp's dataset with over 150,000 observations, employing advanced analytics and Random Forest models to predict restaurant ratings, handling 4.9 million missing values. - Pinpointed key geographical factors—longitude, latitude, and postal codes that notably influenced ratings, with strategic adjustments in price range boosting ratings by up to 10% and location choices enhancing customer satisfaction by 15%. - Developed business strategies to optimize service attributes and align offerings with local preferences, significantly improving Yelp ratings. My role demonstrated strong skills in data analytics, statistical modeling, and delivering actionable insights to enhance hospitality business outcomes.

CERTIFICATIONS

- AWS Cloud Practitioner certificate.
- Graduate Certificate in Applied Machine Learning, University of Texas at Dallas.
- Microsoft Power BI Data Analyst Associate.
