

WALE AFUWAPE

CYBERSECURITY | INFORMATION ASSURANCE | RMF | SECURITY ANALYST

📞 708-369-1949 | ✉️ oluafu@gmail.com

SUMMARY

Cybersecurity and Information Assurance Analyst with 6+ years of experience supporting federal and enterprise environments across RMF, security control assessment, IV&V, vulnerability management, incident response, IAM, and compliance. Experienced in security authorization, SSP/POA&M management, vulnerability assessment, security monitoring, risk analysis, remediation coordination, and audit readiness. Hands-on experience with NIST 800-53, FISMA, FIPS 199/200, FedRAMP, PCI DSS, Nessus, ACAS, eMASS, ServiceNow, Microsoft Sentinel, Defender, Azure, and AWS. Proven ability to translate technical security findings into actionable remediation and executive-ready reporting while collaborating with security, operations, and technical teams.

EXPERIENCE

PEUO - Leidos Federal Contract – Remote
IV&V Systems Analyst | *March 2026 – Present*

- Performed independent IV&V assessments of IT security controls, validating remediation testing, evidence, and control effectiveness against FISMA, RMF, NIST 800-series, and federal cybersecurity requirements.
- Reviewed Component IV&V packages, SSPs, security assessment artifacts, remediation evidence, and POA&M-related documentation, identifying deficiencies and providing risk-based recommendations.
- Supported Security Authorization Reviews by evaluating system documentation and control implementations for completeness, traceability, compliance, and authorization readiness.
- Managed the IV&V approval lifecycle, tracking submissions, remediation status, and required CISOD/OCFO approvals while maintaining accurate audit and compliance records.
- Analyzed IT audit data, commitment letters, control-testing results, and remediation metrics to identify gaps and develop monthly security and compliance reporting for leadership.
- Developed and maintained traceability matrices, RACI documentation, QA processes, assessment checklists, and standardized security documentation to improve assessment consistency and audit readiness.
- Translated complex technical findings into executive-ready, risk-based reporting, supporting audit readiness, authorization decisions, remediation prioritization, and cybersecurity governance.

Bell Flavors & Fragrance – Northbrook, IL
IT Security and Support Analyst | *Aug 2025 – March 2026*

- Monitored SIEM, endpoint, phishing, and cloud security alerts, investigating suspicious activity and supporting security incident response and remediation.
- Conducted security audits, risk assessments, vulnerability testing, and remediation tracking, identifying security gaps and coordinating corrective actions.
- Supported vulnerability management, patching, and PCI DSS 4.0 compliance, working with technical teams to address identified security risks.

- Led phishing simulations and incident response tabletop exercises, documenting results, identifying control gaps, and recommending improvements.
- Maintained security runbooks, dashboards, threat documentation, incident records, and security metrics to support operational security and audit readiness.
- Support Azure and AWS cloud security operations.
- Assisted with IAM, access management, endpoint security, and technical troubleshooting, supporting secure user and system operations
- Deliver security awareness training and document procedures.

Centuria – Hanscom Air Force Base, MA
Information System Security Officer | *Jun 2024 – August 2025*

- Supported RMF and NIST 800-53 security compliance for high-sensitivity systems, maintaining SSPs, SARs, security artifacts, and authorization documentation.
- Conducted control assessments, risk analysis, and remediation activities, supporting audit readiness and reduction of security findings.
- Maintained security documentation (SSPs, SARs, SAAs), ensuring readiness for audits and ongoing compliance.
- Oversaw privileged account lifecycle, supporting authentication protocols and identity assurance practices.
- Collaborated with technical and cross-functional teams to identify and mitigate system security and access-related risks.

Super Systems Inc – Hanscom Air Force Base, MA
Information Assurance Analyst | *Nov 2023 – May 2024*

- Supported DoD information assurance and security compliance activities, validating security and identity controls against applicable federal requirements.
- Integrated SAML-based federated identity for financial vendors, supporting secure B2B authentication models.
- Partnered with audit teams to validate identity controls, contributing to successful SOX and internal compliance reviews.
- Championed IAM incident response, including root cause analysis, corrective actions, and stakeholder communication.

SEB Group
Security Risk Analyst | *Feb 2021 – Nov 2023*

- Conducted enterprise-wide identity and access risk assessments to identify gaps and enforce policy compliance.
- Automated identity reporting and access control workflows using ServiceNow, increasing operational efficiency.
- Facilitated onboarding of identity governance tools, supporting policy enforcement and lifecycle automation.
- Provided senior management with access compliance metrics, enabling transparent, risk-informed decisions.

Select Health Group
Cybersecurity Administrator | *Mar 2020 – Feb 2021*

- Monitored IAM-related security events, triaged anomalies, and escalated unauthorized access threats.

- Conducted HIPAA security risk assessments covering authentication, access provisioning, and identity controls.
- Implemented SCIM-based automation for access provisioning, reducing manual errors and support ticket volume.
- Worked with internal stakeholders and third parties to ensure identity-related compliance and policy adherence.

PROJECTS & TECHNOLOGIES

- **IAM & Risk Platforms:** eMASS, ACAS, Tenable, Nessus, ServiceNow, SharePoint
- **Security Tools:** SIEM (Microsoft Sentinel), EDR, Wireshark, TEMPEST
- **IAM & Scripting:** PowerShell, SCIM, SAML, BASH, Remedy
- **Frameworks:** NIST 800-53/37/40/61, ISO 27001, COBIT, PCI-DSS, HIPAA, GDPR, SOX
- **Other:** Access Control Governance, Policy Review, Control Design, Identity Auditing

CERTIFICATIONS

- CompTIA Security +
- CySA +

EDUCATION

Postgraduate Certificate (Honors), Cybersecurity

University of Texas at Austin — 2023

B.F.A., Industrial Design

University of Illinois at Chicago — 2011

CORE SKILLS
