EDUCATION

THE UNIVERSITY OF TEXAS AT DALLAS (2022 - 2024)

- Master of Science, Information Technology and Management

ANNA UNIVERSITY COLLEGE: SREC, COIMBATORE

- Bachelor of Engineering, Computer Science and Engineering

SKILLS

- Programming Languages: Python (Pandas, Numpy, Matplotlib, Scikit-Learn, TensorFlow), SQL (PL/SQL, PostgreSQL), R
- Tools: Tableau, Power BI, Google Data Studio, Looker, Apache Airflow, Kafka, AWS Services (EC2, S3), Google Analytics, Jira, Confluence, Microsoft Office Suite

CERTIFICATIONS

- Google Certified Data Analytics Professional
- Applied Data Science with Python
- Databases & SQL for Data Science
- Interactive Statistical Data Visualization 101

LANGUAGES

English, Tamil, Hindi

AKSHAYA MOHAN

WORK EXPERIENCE

Cognizant Technology Solutions, India

OCT 2021 - JUN 2022

Programmer Analyst

- Enhanced data flow by 30% and ensured high data accessibility for timely analytics by **developing scalable data pipelines** using **Oracle SQL**.
- Increased **strategic decision-making** efficiency by 40% by **optimizing data accuracy** and **uncovering key trends** through **SQL** and **Python-based exploratory analysis**.
- Streamlined operations, reducing manual tasks by 45%, by **automating data handling** and **project management workflows** through integrating **Jira** and **Confluence APIs**.
- Promoted** to **Temenos T24 Intern** (GenC Pro / Special skill - 2022) for outstanding performance, tasked with maintaining **model banking application** functionalities using the **Temenos Ninjas Product Suite**.
- Facilitated **data-driven decision-making**, improving **report generation** capabilities by 20%, by utilizing **advanced SQL querying techniques** in over 20 practical exercises.

PROJECT EXPERIENCE

Strategic Market Entry for Industrial and Commercial Chargers in the Indian Market

JAN 2024 - MAY 2024

Business Analyst

- Projected a 30% market share gain in 5 years by **designing and executing structured analyses** using predictive models developed with **Python (Pandas, Numpy, Scikit-Learn)** and **R** for demand forecasting.
- Enhanced target market analysis precision by 35%, improving insights through **multivariate analysis of market behaviors** with **Tableau** and **Looker** visualizations.
- Reduced customer acquisition costs by 10% through **quantitative reasoning and strategic thinking**, conducting cost optimization, competitor analysis, and differentiation strategy development in **Excel**.
- Improved process efficiency by 15% by **leading a cross-functional team** and implementing **Agile methodologies** for comprehensive project management.

SFO Passenger Traffic Trends: Pre- to Post-Pandemic (COVID-19)

AUG 2023 - DEC 2023

Data Analyst

- Maintained robust SQL and Python scripts** to perform **structured analyses** on pre- and post-pandemic traffic data, increasing predictive model accuracy by 30%.
- Optimized resource allocation by 45% through **dynamic Tableau and Power BI visualizations** identifying high-traffic periods to communicate airline recovery insights.
- Reduced comprehension time for **non-technical stakeholders** by 30%, accomplishing clearer data storytelling through **visually compelling Tableau and Power BI dashboards**.

Credit Card Fraud Detection

JAN 2023 - MAY 2023

Fraud Detection Data Analyst

- Achieved **91% accuracy** identifying fraudulent transactions through **logistic regression** and **neural network models** for **structured analyses**, reducing fraud 30% year-over-year.
- Analyzed a transactional dataset** with **50,000 records** to **identify specific fraud patterns**, such as high-velocity transactions, and address mismatches providing insights for enhancing **fraud prevention strategies**.
- Increased alert accuracy by 30% through a real-time fraud alert system integrated with **Apache Kafka**, **demonstrating ETL and data infrastructure skills**.
- Reduced data processing time by 35% by **optimizing data pipelines** handling **5,000 daily transactions** on **AWS infrastructure**.
