EXPERIENCE:

TIAA Financial Services – Charlotte, NC

Senior Business Analyst

July 2023 – Current
(Sector: Finance/Insurance)

Project Details:

TIAA Enterprise Analytics Drive

I am leading a high-impact project aimed at implementing a business intelligence dashboard to track real-time insights into TIAA's inflow and outflow revenue. This project aims to standardize the financial dimensions of certified assets and flows to facilitate the enrichment of data for the enterprise to drive informed decision-making in TIAA's retirement planning tools and enhance customer satisfaction.

Responsibilities:

- Work closely with stakeholders to prioritize and manage project deliverables, ensuring alignment with business objectives and timelines.
- Analyze the scope of the requirements and manage requirements to avoid Scope Creep.
- Coordinate and lead cross-functional teams to execute projects and ensure successful delivery utilizing Jira to manage project tasks and track progress.
- Lead requirements gathering sessions, documenting detailed business requirements, use cases, and functional specifications.
- Perform gap analysis to identify discrepancies between current and desired processes, proposing solutions to bridge the gaps.
- Create data mapping documentation to ensure precise data extraction, transformation, and loading (ETL) procedures for diverse databases, ensuring seamless integration of data from various sources into a unified format.
- Utilize advanced data analytics tools like Tableau for reporting and SQL for querying and extracting data from Snowflake.
- Create comprehensive business process documentation and workflow diagrams to facilitate understanding and communication.
- Work closely with development teams to ensure successful implementation of software solutions.
- Collaborate with IT, business units, and external auditors to establish data governance policies and standards.
- Manage relationships with key clients and stakeholders to gather feedback and ensure alignment with project goals.
- Create comprehensive documentation, including process flows, requirements specifications, and user manuals, to facilitate ongoing product support and knowledge transfer.
- Present findings and recommendations to senior management, influencing strategic decisions.
- Support change management efforts by providing training and documentation to end-users.
- Mentor and train junior analysts, fostering a culture of continuous improvement.

Tools: Jira, SharePoint, Confluence, MS Excel, MS Visio, Tableau, MongoDB, Oracle, Snowflake

CVS Pharmacy Inc – Hartford, CT

Salesforce Business Analyst

June 2021 – June 2023

(Sector: Healthcare)

Sr Business Analyst

Project Details:
