SKILLS

- Proficient in ICD-10 coding
- Proficient in CPT coding
- Experienced in critical care coding
- Microsoft Excel knowledgeable

A Certified Professional Coder (CPC) and highly experienced Senior Emergency Medical Coder with over 17 years of specialized coding expertise in Emergency Medicine, Critical Care, ICD-10, and CPT coding. I Bring a deep understanding of AMA and CMS coding guidelines, medical terminology, and compliance with HIPAA and data confidentiality regulations. Throughout my tenure with UnitedHealthCare Group/Optum Insight from 2007 to 2025, I have consistently maintained high accuracy and productivity rates, demonstrating a disciplined approach to complex coding tasks. Excels in interpreting physician documentation, assigning precise ICD-10 and CPT codes (including modifiers), and ensuring alignment with federal regulations and payer requirements. Proficient in Emergency Medicine coding workflows, critical care code assignment, and handling high volumes of patient data with minimal supervision. Have a strong command of coding compliance and dedication to continuing education ensuring I remain up to date with evolving coding standards and best practices. Known for collaborative mindset, strong work ethic, and ability to quickly learn and adapt to new specialties with the proper training. My career is defined by reliability, accuracy, and a team-oriented attitude — making an immediate asset to any healthcare organization seeking expertise in emergency and outpatient coding.
