Professional Summary

Java Backend Developer with 6+ months of experience building scalable microservices and RESTful APIs using Spring Boot, Hibernate, and AWS. Proven expertise in third-party API integration (Shopify, WooCommerce, Squarespace), ecommerce platform development, and production system optimization. Strong problem-solving foundation with 500+ LeetCode solutions.

Technical Skills

Languages: Java 8/11, SQL, JavaScript, Python, C++

Frameworks: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate ORM, Maven, JUnit

Databases: MySQL, PostgreSQL, MongoDB, Redis Caching

APIs & Integration: RESTful Web Services, JSON, XML, Third-Party APIs, OAuth 2.0, Webhooks

DevOps: AWS (EC2, S3), Docker, Git, GitHub Actions, CI/CD Pipelines, Postman API Testing

Architecture: Microservices, Apache Kafka, Eureka Server, Feign Client, Event-Driven Systems

Frontend: React.js, Angular, JSP, HTML5, CSS3, Bootstrap

Professional Experience

Java Backend Developer Intern

Sep 2025 – Present

RMgX Technologies LLP | Client: eShipper Canada

Gurgaon, India

- Integrated eShipper REST APIs with Shopify, WooCommerce, and Squarespace platforms using Spring Boot and Hibernate, enabling automated order synchronization, product mapping, and variant management across 5+ production ecommerce stores
- Debugged and resolved 30+ critical production issues in authentication flows, data synchronization modules, and API integration layers, reducing client-reported errors by 40% and improving system reliability
- Collaborated with cross-functional teams to implement webhook handlers for real-time inventory updates and order processing, ensuring data consistency across multiple platforms

Full Stack Java Developer

Dec 2024 – May 2025

TeachToTech

Delhi NCR, India

- Developed scalable microservices architecture using Spring Boot 3.4, PostgreSQL, and Hibernate with Eureka Server for service discovery and Feign Client for inter-service communication across 5 microservices
- Optimized RESTful API endpoints through query tuning and caching strategies, improving response times by 20%; deployed production services on Hostinger VPS with automated CI/CD pipeline configuration

Projects

PaySync - Digital Wallet System | Live Demo | GitHub

Apr 2025

- Architected event-driven microservices using Spring Boot, Apache Kafka, PostgreSQL, Redis, and Elasticsearch for wallet management and transaction processing with ACID compliance
- Implemented JWT-based authentication, role-based authorization, and idempotency mechanisms for financial operations; containerized application with Docker and deployed on AWS EC2 with automated CI/CD using GitHub Actions

Cloud Kitchen Ecommerce Platform | Live Site | GitHub

Mar 2025

- Built full-stack ecommerce solution with Spring Boot backend, React.js frontend, and PostgreSQL database featuring order management, inventory tracking, and payment integration
- Reduced API response latency by 60% through Redis caching implementation; integrated automated email notifications and role-based access control supporting admin, staff, and customer roles

Education

Bachelor of Technology in Computer Science Engineering

Sep 2022 – Aug 2026

KIET Group of Institutions, Ghaziabad

CGPA: 8.64/10.0

Higher Secondary Education - Science (PCM)

Jul 2020 – Apr 2022

Delhi Public School Indrapuram, Ghaziabad

Percentage: 95%

Certifications & Achievements

Java Developer Certification - Telusko (2024) | **AWS Cloud Practitioner** - In Progress

Competitive Programming: Solved 500+ problems on LeetCode focusing on Data Structures and Algorithms

Open Source: 3 live production applications on GitHub with comprehensive documentation
