

ASRITHA SADU

Data Analyst

TX, USA | +1 3163025665 | sasrithaadu@gmail.com

SUMMARY

Data Analyst with **4+ years of experience** delivering data-driven insights across healthcare, consulting, and pharmaceutical industries. Proven expertise in building scalable **ETL pipelines**, developing **interactive dashboards**, and improving **data quality** through automation and advanced analytics. Skilled in **Python, SQL, Power BI**, and cloud platforms including **AWS** and **Azure**. Adept at analyzing complex datasets, optimizing reporting processes, and supporting compliance initiatives through data reconciliation and governance frameworks. Strong background in collaborating with cross-functional teams to streamline operations, reduce manual effort, and drive informed decision-making.

EXPERIENCE

Data Analyst | Molina Healthcare | TX, USA

February 2024 – Current

- Engineered ETL pipelines using **Python, SQL**, and **Pandas** to process **50,000+ claims per week**, reducing manual work by **12 hours** and improving delivery speed.
- Built **6 Power BI dashboards** from **Snowflake** data, enabling **40+ stakeholders** to access care insights **2 days earlier** for operational planning.
- Investigated and resolved **7 pipeline failures** using **Shell scripting** and **regex log audits** in **CloudWatch**, restoring production stability across **3 systems**.
- Documented **10 data workflows** and models in **Confluence**, supporting onboarding and compliance for internal audit readiness.
- Automated recurring report delivery with **AWS Lambda** and **Power BI Subscriptions**, freeing up **weekly analyst time** and improving report consistency.

Data Analyst | KPMG | India

October 2020 – July 2022

- Developed ETL pipelines using **SQL, AWS Glue**, and **Airflow**, streamlining ingestion from **5+ internal systems** for audit workflows.
- Designed **4 real-time dashboards** in **Power BI** and **QuickSight**, enabling faster decision-making for **30+ compliance stakeholders**.
- Conducted log-level anomaly detection with **Python** and **Pandas** on **S3-stored records**, uncovering **100+ onboarding issues**.
- Reconciled financial variances using **AWS RDS, SQL**, and **Excel**, improving reporting accuracy across **8 portfolios**.
- Automated ticket triage with **Lambda-based triggers** in **Jira**, accelerating resolution for **25+ recurring data quality issues**.
- Standardized regulatory documentation using **Confluence**, contributing directly to **6 successful internal audits**.
- Prepared external datasets with **Tableau Prep** and loaded outputs into **Redshift**, cutting manual transformation time.
- Validated journal entries by cross-referencing **MS Access** logs and **RDS queries**, ensuring audit-ready data consistency.
- Implemented exception logic with **Power Query**, improving visibility into transactional anomalies across audit reports.
- Scheduled automated KPI report delivery using **VBA** and **AWS SES**, saving **10+ manual hours monthly** in compliance reporting.

Data Analyst Intern | Cipla | India

March 2020 – September 2020

- Audited **50K+ clinical** and formulation records using **Python**, identifying anomalies that improved regulatory submission accuracy.
- Built **SQL** queries to validate API batch data across manufacturing logs, resolving **120+ mismatches** across **3 internal systems**.
- Automated reconciliation of drug inventory data in **Excel**, reducing weekly processing time by **2 hours per site**.
- Logged quality control issues in **Jira**, tracking **40+ data deviations** linked to GMP compliance risks.
- Documented data lineage for **2 clinical workflows** in **Confluence**, supporting internal audits and SOP alignment.

PROJECTS

Healthcare Claims Reconciliation Automation

- Automated multi-source claims comparison using **Python**, detecting **120+ mismatches** and saving **2 manual hours per batch**, improving audit accuracy.

KPI Dashboard for Pharmaceutical Operations

- Designed **4 Power BI** dashboards integrated with **SQL** to monitor drug inventory and delays, enabling **40+ stakeholders** to access weekly operational KPIs.

Data Quality Framework for Onboarding Analysis

- Audited **50K+ onboarding records** using **log analysis**, uncovering **12 workflow gaps** and accelerating compliance resolution through improved process transparency.

TECHNICAL SKILLS

- Languages & Scripting:** Python, SQL, R, SAS, VBA, PL/SQL, Shell, DAX, M Language (Power Query)
- Analytics & Machine Learning:** Regression, Classification, Forecasting, A/B Testing, Time Series, K-Means, Random Forest, SVM, Naïve Bayes
- Libraries & Data Analysis Tools:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Excel (PivotTables, Power Query, Macros)
- Data Visualization & BI Tools:** Power BI, Tableau, QuickSight, SSRS, Salesforce Dashboards, Looker, Qlik, MicroStrategy
- Databases:** Oracle, SQL Server, MySQL, PostgreSQL, MongoDB, Snowflake, BigQuery, Redshift, SQLite
- Cloud & Data Platforms:** AWS (S3, Lambda, EC2, Glue, RDS), Azure (ADF, Synapse, Databricks), GCP (BigQuery, Dataflow)
- ETL & Data Modeling:** ADF, SSIS, AWS Glue, Informatica, dbt, APIs, Star Schema, Snowflake Schema, Data Pipelines
- Data Governance & Quality:** Metadata Management, Data Validation, Master Data Management (MDM), Row-Level Security, Compliance, Data Catalogs (e.g., Purview)
- Automation & Reporting:** Python Scripting, VBA, Power Automate, SQL Workbench, SnowSQL, Batch Processing
- Collaboration & Documentation:** JIRA, Confluence, Trello, Visio, SharePoint, Slack, Microsoft Teams
- Frameworks & Methodologies:** Agile, Scrum, SDLC, CRISP-DM, DMAIC
- Domains:** Healthcare, Logistics, Supply Chain, Infrastructure

EDUCATION

Wichita State University | Kansas, USA

August 2022 – December 2023

Master of Science in Computer Science

Jawaharlal Nehru Technological University | India

May 2017 – May 2021

Bachelor of Technology in Computer Science
