Professional Summary

Results-driven Data & Reporting Analyst with over 5 years of experience transforming complex datasets into actionable business intelligence. Experience in designing and automating interactive dashboards and reports using Advanced Excel (Power Query), Power BI (DAX, M Query) to track KPIs and drive strategic decision-making. Skilled in writing advanced SQL queries (T-SQL, PostgreSQL) for data extraction, manipulation, and modeling. Assisted in optimizing reporting processes to improve efficiency and data accuracy.

Technical Skills

- **Business Intelligence & Visualization:** Advanced Excel (Power Query), Power BI (DAX, M Query), Tableau, Matplotlib, Seaborn
- **Data Analysis & Programming:** SQL (T-SQL, PostgreSQL), Python (Pandas, NumPy)
- **Power Platform:** Power Automate, Power Virtual Agents, Microsoft Power Platform

Projects

Retail Sales Analysis and Forecasting

- Performed an in-depth EDA on retail sales data to deliver key business intelligence, creating visualizations that identified the top 5 revenue-generating stores and product categories for strategic focus.
- Technologies: Python, Pandas, Matplotlib, Seaborn

Customer Churn Analysis (SQL)

- Performed pattern analysis on a large Telcochurn dataset using advanced SQL to identify key risk factors. Discovered key insight that churn was highest among month-to-month contract users with fiber optic internet.
- Technologies: PostgreSQL, Window Functions, CTEs

Experience

StoneGrid

Jr. Data Scientist

Remote
May 2025 - Present

- Improved forecast accuracy by 38% over a baseline by designing and implementing a predictive sales forecasting model using Python (Prophet, scikit-learn) to inform strategic business planning.
- Streamlined new analyst onboarding by 25% by developing a comprehensive Quality Assurance (QA) Unit Testing guide with detailed, step-by-step visuals.
- Optimized data pipelines for critical business reports and implemented a robust tracking system to ensure timely delivery and support data governance initiatives.

Hudson Insurance Group

Business Intelligence Analyst

New York, NY
October 2022 - July 2024

- Partnered with business owners to design and deliver interactive, actionable Power BI dashboards for 50+ users, automating the tracking of critical KPIs and operational metrics and saving 20% of manual reporting time.
- Decreased data discrepancies by 15% by leading data integrity projects, cleaning and modeling financial data with T-SQL and DAX.
- Served as the primary liaison and translated needs into scalable data models, creating comprehensive process documentation that empowered users and reduced ad-hoc requests by 30%.

Providity

Reporting Analyst

Remote
November 2021 - July 2022

- Saved the finance team 5 hours of manual work per week by automating a multi-source budget reconciliation process using Power Query and advanced Excel.
- Extracted, collated, and transformed data from disparate systems using complex T-SQL queries (joins, aggregate functions) to support operational analytics and reporting initiatives.
- Increased forecasting efficiency by 20% by building lightweight data models in Excel that enabled teams to better visualize business trends.

Parent Assist Link Solutions

Data Analyst

Hightstown, NJ
October 2020 - September 2021

- Engineered a low-code conversational AI solution using Power Virtual Agents and Power Automate, automating the FAQ and appointment scheduling process to provide 24/7 self-service capabilities and improve user engagement by 30%.
- Translated raw user interaction data from the new conversational AI into actionable business intelligence, creating reports that summarized key trends in user needs and guided process improvements.

Education

Bachelor of Science(B.S.) - Information Technology, Concentration in Data Analytics

New Jersey Institute of Technology, Graduated May 2022

Masters of Science(M.S.) - Data Science

University of the Cumberland, Currently Enrolled

Certifications

Microsoft Certified: Azure Fundamentals(AZ-900) - 03/25/2024

Microsoft Certified: Power BI Associate(PL-300) - 01/28/2024

Microsoft Certified: Power Platform Fundamentals(PL-900) - 09/27/2022

Microsoft Certified: Data Engineer Associate(DP-203) - In Progress
