Ashburn, VA 20148 | 423-366-1934 | Brooksam99@gmail.com | [LinkedIn](#)

Summary

Quality Assurance Specialist with mid-level experience driving pharmacy benefit accuracy and clinical quality improvements. Led validation of configurations for over five plans, analyzing up to 1,500 claims daily and reducing plan build discrepancies through strengthened QA controls. Conducted root-cause analysis of inpatient falls, contributing to a 35% reduction in fall rates and supporting process-improvement initiatives. Seeking to apply data-driven QA expertise to enhance operational efficiency and patient outcomes.

Experience

Prime Therapeutics | *Quality Assurance Specialist (Pharmacy Benefits)*

Apr 2025 - Dec 2025

- Validated pharmacy benefit configurations across 5+ plans daily, analyzing 700-1,500 claims per plan to ensure pricing accuracy and regulatory compliance.
- Reduced plan build discrepancies by identifying recurring configuration errors and strengthening QA controls.
- Partnered with IT and QA teams, applying Agile/Scrum practices and claims-processing tools to troubleshoot and resolve complex claims adjudication issues, restoring accurate claim processing for affected plans

Walgreens | *Licensed Pharmacy Technician*

Jul 2024 - Present

- Delivered safe, accurate medication dispensing by following Walgreens SOPs and process-mapping guidelines, resulting in zero compliance violations and enhanced patient safety
- Collaborated with pharmacists and healthcare teams to educate patients and resolve insurance issues, using stakeholder-communication techniques to expedite medication access and improve patient understanding of proper use
- Ensured regulatory compliance by accurately managing inventory, storage, and handling of refrigerated and hazardous medications, resulting in zero safety incidents.
- Verified prescriptions for accuracy in dosage, interactions, and patient information, reducing dispensing errors and ensuring patient safety.

Ballad Health | *BSHA Intern*

Jan 2024 - Apr 2024

- Analyzed patient data and conducted literature reviews using Excel and LEAN methodologies to create educational materials for patients and stakeholders, which improved patient understanding of care plans
- Conducted root cause analysis on 300+ inpatient falls and assisted in implementing a fall prevention program, contributing to a 35% reduction in organizational fall rate.
- Designed patient-education infographics with Canva and applied Lean process-improvement techniques, resulting in clearer communication and higher patient-engagement scores
- Partnered with quality leaders and physicians to apply QI tools and create a CHG audit checklist, which streamlined audit procedures and cut checklist completion time

Skills

- Quality Assurance & Compliance:** QA testing & validation, PBM configuration review, Audit preparation & documentation, Error detection & adjudication accuracy
