Summary

Results-driven Cybersecurity Professional with 15+ years of experience in technical leadership and secure infrastructure strategy. Holds a Professional Certificate in Cybersecurity from MIT xPRO, with hands-on proficiency in SOC operations, risk management, IAM, incident response, and security frameworks, including NIST, ISO 27001, and MITRE ATT&CK. Proven success implementing encryption protocols and access controls to reduce risk and protect data. Skilled at translating business needs into secure technical solutions and collaborating across teams to drive security outcomes. Currently seeking an entry-level SOC or GRC Analyst position to apply operational defense and compliance knowledge while continuing to build deep technical capabilities.

TECHNICAL SKILLS

Operating Systems & Software: Windows, Linux, macOS, Microsoft Server, Excel

Security Tools: OWASP ZAP, Metasploit, Digital Forensics, Reverse Engineering

Network Security & Assessment: Firewall Configuration, Risk Assessment, Vulnerability Assessment, Network Scanning, IDS/IPS

Cybersecurity Frameworks & Practices: NIST CSF, ISO 27001, SOC Operations, Incident Response, IAM, SIEM Tools, MFA, Endpoint Security

Offensive & Defensive Strategies: Threat Emulation, Exploitation Simulation, Log Analysis, Forensics, IAM Policy Design, Risk Mitigation

Soft Skills: Leadership, Problem-Solving, Critical Thinking, Communication, Technical Writing

PROFESSIONAL EXPERIENCE

Cybersecurity Training & Education – Riverside, CA

Cybersecurity Student & Career Transition Jan 2024 – Present

- Pursuing **MIT xPRO Professional Certificate in Cybersecurity** with a focus on threat modeling, risk management, and incident response
- Studying for **CompTIA Security+** certification to build foundational knowledge in network security, cryptography, and access control

- Engaged in cybersecurity communities and study groups to stay current with industry trends and best practices
- **Capstone Project: Offensive & Defensive Strategies**
 - Simulated real-world attack scenarios using OWASP ZAP and Metasploit to identify and exploit vulnerabilities
 - Implemented defensive measures, including SIEM log analysis, incident response playbooks, and IAM policy updates
 - Conducted packet analysis and forensic investigation using Wireshark to detect and respond to threats
 - Delivered a comprehensive security report outlining risk mitigation strategies and SOC workflow enhancements

Best HDD, Inc. – Corona, CA *Executive Sales & Security Program Manager Apr 2015 – Jan 2024*

- Led e-commerce security initiatives, deploying MFA and encryption protocols to enhance online transaction security
- Partnered with IT and compliance teams to harden infrastructure and reduce operational security risk by 20%
- Implemented internal controls and audit procedures based on NIST CSF, improving anomaly detection
- Contributed to threat modeling and access reviews, supporting IAM policy updates and secure provisioning

GMI Tech – Yorba Linda, CA *Sales Account Manager Mar 2005 – Feb 2015*

- Managed enterprise accounts focused on hardware encryption and secure data integration
- Delivered technical consultations on endpoint protection, system reliability, and secure deployments
- Streamlined workflows to reduce vulnerabilities in data handling and encrypted device rollouts
- Supported IT compliance audits and client training aligned with internal security policies

EDUCATION

National University – San Diego, CA

B.S. in Information Systems, Jan 1999 – Apr 2004

MIT xPRO – Cambridge, MA

Professional Certificate in Cybersecurity Jun 2024 – Jan 2025

CERTIFICATION

- **CompTIA Security+** (*In Progress*)
