

CHRISTIAN COTTEN

Royse City, TX (469) 543-8932 cacotten@outlook.com <https://www.linkedin.com/in/cacotten/> <https://www.datascienceportfol.io/cacotten>

CAREER SUMMARY

Entry-level Analyst with a business first-approach to analytics, focused on defining meaningful questions, ensuring data readiness, and delivering KPI-driven insights to support decision-making. Experienced in Excel, SQL, and Power BI, with hands-on experience in data cleaning, data modeling, and dashboard reporting. Known for clear communication, stakeholder collaboration, and translating complex data into actionable insights.

CORE COMPETENCIES

Programming: SQL (MySQL, SQL Server Management Studio)

Data Preparation: Excel, SQL, Power Query

Database & Data Modeling: Relational Databases, ERD Design, Data Modeling

Analytical Methods: Descriptive Analysis, Linear & Multiple Regression, Segmentation (K-Means)

Data Visualization: Power BI, Excel, PowerPoint, Dashboard Development

PROJECTS

INDEPENDENT PROJECTS

ROYSE CITY, TX

Data Analyst | Adventure Works Operational KPI & Performance Reporting

Independent Business Intelligence Project, December 2025

- Cleaned, validated, and standardized **1,000+ transactional records** across sales, product, customer, and regional data to ensure accuracy and consistency for reporting.
- Designed relational data models and DAX measures to calculate core KPIs including revenue, profit, order volume, return rates, and customer growth.
- Built interactive KPI dashboards analyzing **25K+ orders** and **\$10.5M in profit**, enabling visibility into performance trends, category mix, and regional contribution.
- Delivered actionable insights identifying **accessories as the top category (~17K orders)**, **stable return rates (~2%)**, and **average-income customers as the largest segment (~12K orders)**.

EAST TEXAS A&M UNIVERSITY - DEPT. OF BUSINESS ANALYTICS

COMMERCE, TX

Data Analyst | Mindbody Customer Enrollment Analysis

Graduate Research Project, Master's in Business Analytics, November 2025 – December 2025

- Cleaned and standardized customer booking and enrollment data for **760 enrollments (2023)** to ensure accurate reporting.
- Modeled customer, class, and instructor data using **relational and star-schema structures** to support consistent KPI tracking.
- Developed dashboards monitoring **attendance (79%)**, **completion (85%)**, **no-shows/transfers (4%)**, and **active enrollments (11%)**.
- Reported key operational insights, including Dance accounting for **82% of enrollments**, top-performing instructors, and popular time slots.

Data Analyst | Education Funding & Performance Analysis

Graduate Research Project, Master's in Business Analytics, January 2025 – May 2025

- Analyzed funding, enrollment, and academic performance data across **22 high schools** to track KPI consistency and identify variance in per-student funding and outcomes
- Designed and maintained a **relational database** integrating **three data domains** (budget, enrollment, performance) enabling consistent KPI tracking and traceable reporting across schools.
- Executed **SQL** and **Excel** analyses to validate data relationships, identify anomalies, and support reliable multi-variable reporting
- Developed standardized dashboards highlighting per-student funding disparities and model budget adjustments expected to **improve STAAR performance by ~2%**.

EDUCATION

EAST TEXAS A&M UNIVERSITY

COMMERCE, TX

Master of Science in Business Analytics
