Client-facing Project Manager & internal product owner experienced in building & scaling operational tools, workflows, & reporting in regulated environments. Bring strong analytics (Power BI/Excel automation) to drive prioritization, KPI visibility, & predictable white-glove delivery

Toolkit: MS Project, JIRA, Smartsheet, Primavera P6, Visio, SharePoint, Power BI, Power Apps, Tableau, Excel (VBA, Macros), SQL, GSuite
CRM & ERP: Salesforce, NetSuite, Oracle Eloqua, SAP lean IX, Monday **Methods:** PMBOK, Agile/ Kanban + Scrum, Lean Six Sigma, Stage-Gate
Certification: Certified Scrum Product Owner (CSPO), Lean Six Sigma Yellow Belt, PMP (Approved)

PROFESSIONAL EXPERIENCE

IT Project Manager - ISRM

Johnson & Johnson (via Atlas) , Boston, MA

Nov 2025 - Present

- Owned the product backlog for internal tools (PowerApps + Workforce PowerBI dashboards), converting user demand into sprint-ready stories, UAT signoffs, & production releases **improving app efficiency by 60%** by eliminating recurring manual fixes.
- Instituted a Jira **Scrum + Kanban** delivery model to replace ad-hoc Excel intake, structuring **50+** enhancements/defects into prioritized epics with owners, acceptance criteria, & delivery cadences, bringing predictable execution & clearer accountability.
- Automated** weekly FTE postings into Power BI using **Excel/VBA**, eliminating manual ETL and cutting reporting effort **90%** while improving data freshness/consistency for leadership reviews and meeting **SLA-driven** reporting cadences.
- Drove cross-team alignment between Metrics/Reporting & Enterprise Security Architecture to validate data sources (SAP LeanIX) & standardize KPIs resulting in more reliable dashboards used for ISRM capacity planning & vendor prioritization.

Project Manager (Medical Devices)

MaxCyte, Waltham, MA

Mar 2025 – Sep 2025

- Built a post-acquisition PMO, migrating **10+ gene-editing GMP assay programs** from fragmented Excel tracking to **MS Project + Jira**, improving delivery visibility & coordination across Lab Ops, Supply Chain, & Data teams
- Engineered** client project lifecycles by leading stakeholder interviews & translating handoffs (SOW/MSA, Project charter), into repeatable **WBS** templates, front-loading & baselining long-lead tasks (cell extraction, critical path logistics) to **cut onboarding 40%** & reduce handoff delays.
- Championed company's first **Product Obsolescence Program**, conducting **market, financial, & risk analyses** to build the business case, secure **CEO approval**, preserving **~90% revenue** through compliant phase-outs & RUO alternatives
- Led** stakeholder & change management (CCB, ECO) for portfolio shifts designing internal/external communication strategy & **training 25+ Sales/BD reps** to ensure consistent messaging, regulatory alignment, & **zero disruption** to customer programs.
- Developed** an Excel/PowerPivot performance dashboard integrating Eloqua, Salesforce, & cost data to track ROI, cost-per-lead, & spend variance delivering executive-ready insights that justified a **15% increase** in trade show budget & improved investment decisions.by 18%

Program Manager - Research & Business Development

Q-VANT Biosciences, Boston, MA

Dec 2024 - Present

- Owned subcontractor-side program coordination for two oral vaccine grants (**\$9.2M NIH + \$1.6M Gates Foundation award**), translating sponsor workplans into Q-VANT deliverables, meeting cadences, action logs, & on-time responses to technical questions as Primary POC
- Built & maintained **budgets, burn tracking, & invoicing** for Q-VANT deliverables; produced Gantt charts to keep critical-path activities (saponin supply readiness, cGMP certification, audit/validation touchpoints, documentation) on schedule & within budget.
- Ran weekly patent/publication + **market surveillance**, synthesizing findings into leadership-ready summaries that informed prioritization

CMC Project Manager (Pharmaceuticals)

Dynavax Technologies, Emeryville, CA

Sep 2023 - Dec 2023

- Designed a **cGMP go-to-market WBS** for an EU packaging configuration, aligning CMC, quality, & supply activities for a \$1B+ opportunity.
- Negotiated & onboarded a **\$3.4M** outsourcing partner (RFP/SOW/MSA), defining deliverables, governance cadence, & risk controls.
- Resolved packaging nonconformities via cross-functional RCA, averting a **2-month slip** & recovering **30%** of the project timeline.
- Presented **Smartsheet schedules** & cost dashboards to executives, accelerating decision-making **20%** & maintaining baseline adherence.

Project Manager

SAM Integrations Pvt. Ltd, India

Sep 2020 - Jul 2022

- Led end-to-end **ERP integration & vendor coordination**, consolidating material master data & migrating **100%** of BOMs to improve planning accuracy & supply visibility through standardized workflows.
- Managed a **warehouse infrastructure retrofit** using Lean Six Sigma (FIFO, JIT) to redesign layout & production flow, boosting spatial efficiency & cutting material handling time **35%**: Created Power BI dashboards for **inventory forecasting** & improve **OTIF/OTD** visibility
- Enabled cross-functional product trials & structured knowledge transfer for **50+ staff**, reducing training time by **20%**.

EDUCATION

Northeastern University - Boston, MA, USA - Master of Engineering Management

Sep 2022 - Jul 2024

Savitribai Phule Pune University - India - Bachelor of Mechanical Engineering

May 2021 - May 2021
