U.S. Work Authorization: F-1 OPT & STEM Eligible

Data Analyst combining a strong academic foundation in Data Science with hands-on experience in **SQL**, **Python**, and **BI tools** to deliver **data-driven solutions** and support strategic decision-making.

Experience

Lead Data Analyst | Heartland Community Network Jan 2025 - Present

- Collected, cleaned, and validated **structured and unstructured datasets**, ensuring high **data integrity** standards across organizational records.
- Developed interactive **dashboards and reports** using **Power BI** and **Excel**, delivering actionable insights to stakeholders.
- Documented data processes and maintained strict data quality standards while supporting **enterprise-level data environments**.

Data Analyst | Indiana University - Bloomington May 2024 - Aug 2024

- Applied **statistical concepts** and **R** programming to conduct **data analysis** on 129 years of geospatial data.
- Cleaned and validated large-scale datasets, ensuring accuracy and preparing data for advanced **data visualization** and modeling.
- Communicated complex analytical findings through clear **written and verbal communication** to non-technical academic stakeholders.

Data Analyst | Persistent Systems May 2022 - Apr 2023

- Wrote complex **SQL** queries to extract and manipulate data from relational databases (**PostgreSQL**, **MySQL**), improving data retrieval efficiency.
- Performed **exploratory data analysis** using **Python (Pandas, NumPy)** to identify trends, patterns, and anomalies in user behavior.
- Supported senior analysts and cross-functional teams in **delivering insights to stakeholders**, contributing to a 35% increase in targeted user acquisition.
- Assisted in building **data models** and **performance metrics** to evaluate the effectiveness of marketing and operational strategies.

Projects

DataPulse: Cloud Analytics & Reporting | *SQL, BigQuery, BI Tools*

- Wrote **SQL** queries to build automated reporting pipelines, applying **data visualization** principles to create **dashboards** that tracked key **performance metrics**.

TrendLens: Exploratory Data Analysis | *Python (Pandas, NumPy), Statistics*

- Performed **exploratory data analysis** on historical market datasets, applying basic **statistical concepts** to identify trends and patterns.

Salesight: Business Intelligence Modeling | *Tableau, Excel, SQL*

- Developed interactive dashboards and **reports** using **Tableau** and **Excel** (pivot tables, formulas), translating 52,000+ retail records into clear business insights.

Education

Indiana University, Bloomington

Masters in Data Science (Relevant Courses: Statistics, Data Analytics, Mathematics)

Shri Ramdeobaba College of Engineering and Management

Bachelors in Computer Science (Relevant Courses: Databases, Information Systems, Problem Solving)

Skills

- Analytics & BI Tools:** Tableau, Power BI, Excel (Pivot Tables, Formulas), Data Visualization, Dashboards, Exploratory Data Analysis, Performance Metrics
- Data & Programming:** SQL, Python (Pandas, NumPy), R, Data Cleaning, Data Validation, Data Models, Statistical Concepts
- Databases:** PostgreSQL, MySQL, SQL Server, BigQuery, Relational Databases
- Professional Skills:** Problem-Solving, Written & Verbal Communication, Process Documentation, Cross-Functional Collaboration
