Education

Master of Science in Business Analytics | Arizona State University (W. P. Carey School of Business)

Aug 2024 – Dec 2025

Bachelor of Commerce (Honors) | Shri Ram College of Commerce, Delhi University

Jun 2018 – Jun 2021

Technical Skills

- **Data Analytics & Modeling:** Python (NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn, Keras, TensorFlow), R, SQL (window functions, stored procedures, CTEs), Statistical Analysis, Predictive Modeling, Clustering, NLP, Sentiment Analysis, Minitab, SPSS
- **Business Intelligence & Visualization:** Tableau, Power BI (DAX, Power Query), Looker Studio, Excel (VBA), GA4, GTM, HubSpot, A/B & Multivariate Testing, Incrementality Testing, Attribution Modeling, Customer Segmentation, SEO/SEM Tools
- **Data Engineering & Systems:** ETL/ELT Pipelines, Data Mining, Data Warehousing, dbt, BigQuery, MS SQL Server, Google Apps Script, AWS (EC2, SageMaker), GCP, Azure Data Studio, BPMN Process Flows, JIRA, Agile & Scrum, UAT, Power Apps, SOP Documentation, Git/GitHub

Professional Experience

Research Analyst | ExSight.ai

Tempe, AZ | Jan 2025 – Present

- Led cross-functional **A/B experiments on product websites** to evaluate video content strategies, using **GA4 engagement insights** to identify a hybrid approach that informed the VP of Product's roadmap and drove a **27.2%** increase in **user engagement**.
- Coordinated a **6-member cross-functional team** to manage data collection, annotation, and **quality assurance workflows**, implementing standardized processes that reduced project turnaround time by **30%** while ensuring **data accuracy** and **governance compliance**.
- Translated **analytical findings** into concise, **executive-ready summaries and presentations**, enabling non-technical stakeholders to quickly assess trade-offs and make **informed product and strategy decisions**.

Graduate Capstone Analyst | Vizitech USA

Tempe, AZ | Aug 2025 – Dec 2025

- Built a **Python-based predictive analytics pipeline** using structured institutional data, validating two institution segments through **statistical tests** and forecasting adoption likelihood with **87% accuracy**, enabling the client to prioritize **high-probability stations** and **optimize rollout strategies** for new product adoption.
- **Developed interactive Power BI dashboards** combining **institutional research** and **NLP insights** to surface key adoption drivers and **22x cost savings**, collaborating with product management to **support strategic decisions** on a **dual pricing strategy**.
- Designed AI content engine (**ChatGPT API**) generating segment-specific messaging for CAPEX vs OPEX buyers; enabled real-time personalization at scale, reducing content creation time by **90%**.

Operations & Business Analyst Intern | Bangers Snack Inc.

San Francisco, CA | May 2025 – Aug 2025

- Engineered SKU and expiry-level **inventory tracking system** integrating Google Forms, Sheets, and **Apps Script** into unified **Looker Studio** dashboard, eliminating manual errors and **accelerating data refresh cycles by 96%**, enabling real-time supply chain decisions.
- Coordinated supply-chain readiness for a **300-outlet product launch** by monitoring SKU availability and readiness KPIs through **SAP**, aligning inventory with a national marketing campaign and achieving **50% store readiness** ahead of launch, enhancing campaign performance.
- **Launched** the company's first D2C **e-commerce channel on Shopify with Amazon FBA integration**, using **conversion funnel** and **attribution analysis** to optimize customer journeys and inventory velocity, contributing to an **18% sales increase** within two months.

Business & Data Analyst | Global Aroma (RBS IMPEX)

Delhi, India | Jul 2021 – Jun 2024

- Architected an end-to-end data ecosystem integrating **Tally ERP, Amazon FBA, IndiaMART & HubSpot** data using **Python (Pandas, NumPy)** and loading into **MS SQL Server**, where **SQL (CTEs, window functions)** powered reporting across 600+ SKUs and multi-channel sales.
- Streamlined **consolidation of ERP and logistics data** into a centralized **SQL database using Python ETL workflows**, optimized query performance through indexing, and **reduced reporting time by 70%**, enabling consistent daily visibility for sales and operations.
- Conducted a **Market Basket Analysis** using Python to **identify high-affinity product pairs** (e.g., Diffusers and Lavender Oil), leading to the launch of "**Starter Bundles**" that increased **Average Order Value (AOV) by 18%**.
- Delivered centralized **Power BI dashboards**, translating fragmented sales and inventory data into actionable marketing, supply chain, and **regional performance insights**, driving better SKU-level decisions and **reducing cross-team manual reporting by 12 hours weekly**.
- Conducted **marketing & funnel analysis** by integrating **GA4, Google Ads, and Meta Ads**, identifying high-performing campaigns and prepaid discount behavior that led to **seasonal revenue growth by 20%**.

Leadership & Training

- **Teaching Assistant - Machine Learning in Business (Sep 2025 – Dec 2025):** Mentored **50+** graduate students in **supervised/unsupervised learning**, demonstrating LLMs (GPT, Gemini, Hugging Face) and clarifying core ML concepts.
- **Teaching Assistant - Decision Making with Data Analysis (Sep 2025 – Dec 2025):** Guided **60+** students in building **Azure AI Studio** pipelines for **credit card approval classification**, test data creation, statistical modeling, and Tableau visualization.

Projects & Additional Experience

- **AI Data-to-Insight Agent | GitHub:** Deployed **cloud analytics platform (Streamlit + FastAPI)** with **GPT-4** natural language interface, automating WoW executive reviews, enabling conversational data exploration and interactive **Plotly dashboards** with **90% query accuracy**.
- **Grocery Store Review Analysis:** Built an NLP pipeline analyzing 8,000+ Yelp grocery reviews to benchmark sentiment models (VADER, Logistic Regression, SVM) and identify key satisfaction drivers, informing pricing, promotion, and inventory decisions.
