

SUMMARY

Highly motivated **Statistical Programmer with Master's in Health Informatics & Certified Base SAS Specialist, strong knowledge in SAS programming, clinical trial data analysis & regulatory compliance in pharmaceutical industry.** Skilled in data integrity, quality control & debugging to ensure accuracy in statistical reporting. Proficient in ad-hoc reporting & process optimization to enhance statistical programming workflows. Strong knowledge of **clinical trial phases (I-IV) & compliance with regulatory guidelines like ICH-GCP, USFDA, 21 CFR.** Passionate about leveraging & continuously learning statistical methodologies & programming to support clinical research process.

EDUCATION

Indiana University – Indianapolis | **Master's in Health Informatics** | GPA- 3.7

Coursework: Healthcare Data Analytics, Public Health, Biostatistics, Clinical Data Science, Statistical Programming, Relational Databases

Gandhi Institute of Technology & Management | **Bachelor's in Pharmacy** | GPA – 3.5

Coursework: Pharmacology, Medicinal Chemistry, Pharmaceutical Sciences, Biology, Clinical research, Life Sciences, Drug Safety

WORK EXPERIENCE

SAS Data Analyst - Contract

May 2025 - Present

Roche Diagnostics, Indianapolis, USA

- **Debug and re-architect legacy SAS stored processes** to improve performance and efficiency in collaboration with the R&D teams.
- Support **ad-hoc SAS programming requests** by delivering data-driven insights to enhance product safety and quality monitoring.
- Analyzed manufacturing datasets to evaluate the safety & performance of medical devices, contributing to regulatory & study reports.
- Developed and scheduled **SAS batch jobs** to automate the generation of daily & weekly reports, supporting ongoing clinical data review

Statistical Programming Intern

Jun 2023 – Dec 2024

IU School Of Medicine, Indianapolis, USA

- Extracted, cleaned, and aggregated clinical training survey data using **SQL** and **EDC tools (REDCap)**, ensuring **data quality** and **accuracy**.
- Performed statistical analysis using **SAS DATA steps** and **PROC steps** to identify trends and support **clinical reporting**.
- Validated SAS programs by reviewing **SAS log files**, outputs, and code to ensure **healthcare** and **quality control** standards.
- Developed and automated **statistical reports** and visualizations using **PROC REPORT**, **PROC MEANS**, **PROC FREQ**, and **SAS GRAPH**.
- Created visual insights using **ggplot2 (R)** and **SAS Visual Analytics** to support **clinical decision-making**.

Pharmacovigilance Associate – Clinical Trials

Apr 2021 – Oct 2022

Cognizant Technology Solutions (Client-Novartis), India

- Collected & **reviewed adverse event reports** to ensure **accurate & timely reporting** in accordance with regulatory guidelines.
- Performed **case processing of Individual Case Safety Report (ICSR)** and written **case narratives** within **Oracle Argus Safety** database.
- Generated **regulatory/periodic safety reports** & supported safety submissions in line with **ICH-GCP, FDA, EMEA** & internal SOPs.
- Served as **Subject Matter Expert (SME)** within the **ICSR Book-in team**, **mentoring new hires on SOP adherence** & quality standards.
- Worked with multiple **therapeutic areas including oncology, immunology, neuroscience** to analyze pharmaceutical drug safety data-
 - **Oncology:** Jakavi® (ruxolitinib), Sandostatin® SC/LAR (octreotide acetate)
 - **Immunology & Dermatology:** Cosentyx® (secukinumab), Myfortic® (mycophenolic acid), Xolair® (omalizumab)
 - **Neuroscience:** Kesimpta® (ofatumumab), Mayzent®(siponimod)

Clinical Project Associate I

Feb 2021 - Apr 2021

PRA Health Sciences (ICON), India

- Supported the Project Manager and study team to **ensure timely delivery of project milestones** aligned with client expectations.
- Scheduled and coordinated **internal and client-facing meetings**, prepared agendas, meeting minutes, and follow-up action items.
- Assisted in **developing and maintaining clinical trial project tracking tools**, status reports, and key study documentation.
- Monitored compliance with **internal systems (CTMS, TMF)** and project-specific training completion.

TECHNICAL SKILLS

- **Statistical programming:** Base SAS, R, SQL, SAS Enterprise Guide
- **SAS Frameworks:** Base SAS, SAS DATA, SAS PROC, SAS Macros, SAS/SQL, SAS/STAT, SAS/GRAPH, SAS/ODS
- **Clinical Standards & Compliance:** CDISC SDTM/ADaM, ICH-GCP, US FDA guidelines, 21 CFR Part 11, EMEA regulatory guidelines
- **Data Visualization Tools:** Power BI, Tableau, SAS Visual Analytics, Qlik, JMP
- **Microsoft Office Suite:** MS Office - Word, PowerPoint, Excel, Outlook, Teams

CERTIFICATIONS

- **SAS Certified Specialist – Base Programming Using SAS 9.4** (SAS Global Certification Program)
- **ICH Good Clinical Practice E6 R2** - The Global Health Network
- **Signal detection and causality assessment** - Uppsala Monitoring Centre
- Certified in **Health Insurance Portability and Accountability Act (HIPAA)**
- **Forage PWC** - Power BI Job Simulation | **University of Michigan** - Programming for Everybody (Python)
- **Lean Six Sigma White Belt Certification in Healthcare** (Council for Six Sigma)
