EDUCATION

Assumption University, Worcester MA

August 2024

Bachelor of Science, Biotechnology and Molecular Biology
Dean's list, Science GPA 3.9/4.0

Achievements:

- | | |
|---|--------------------------------|
| • People's Choice Award (Oracle) January 2025 Cohort | January 2025 - April 2025 |
| • Brother G. Brassard Award (Basketball and baseball) | September 2022 - August 2024 |
| • Milleret Scholarship | September 2022 - August 2024 |
| • Dean's List (Assumption University) | September 2022 - December 2023 |
| • Dean's List (Nazareth University) | September 2020 - December 2021 |
| • National Honor Society Member | January 2018 - August 2020 |

WORK EXPERIENCE

Oracle, Burlington, Massachusetts

January 2025 – Present

Sales Development Representative

- Selling Fusion applications to enterprise high tech, industrial manufacturing, and healthcare companies
- Exceeded weekly KPIs by more than 30% every week.
- Q4 Monthly meetings held: 140% attainment
- Q4 Monthly meetings setting: 220% attainment
- Awarded People's choice award after January 2025 cohort of 45 SDRs: Positive attitude, team player, and uplifting.

Rota Spring Farm, Sterling Massachusetts

March 2019 – July 2023

Server

- Produced 50% more tips every shift compared to the average server at the company.
- Served 40% more customers every shift compared to the average server at the company.
- Exceeded averages 16 months in a row (March 2022 - July 2023).

Pelham House Resort, Dennis Massachusetts

August 2024 - Present

Barback

- Enhanced bar efficiency by reducing service delays through cleaning the bar, running dishes, and shining glasses.
- 33% reduction in bar turnover rate, enabling bartenders to interact with more customers.
- Consistently interacted and greeted every customer that walked in and that sat at bar

Chocksett Inn, Sterling, Massachusetts**March 2018 - September 2018****Busser and Food Runner**

- Only busser on shift with 3 servers, which led to 50% increase in table cleaning efficiency
- Improved service speed and customer satisfaction by delivering food to each table for the server. Servers saved 3 minutes per food delivery

ATHLETIC EXPERIENCE**Exceed Sports and Performance, Westborough Massachusetts****May 2021 - August 2021****Athletic Training Intern**

- Led classes of 10-25 athletes (middle school to professional age), conducting 3 classes daily, 5 days per week on proper warm-up protocols and strength training techniques.
- Demonstrated Olympic lifts and sprinting mechanics to over 100 athletes throughout the summer, improving their performance by providing detailed form corrections.
- Provided individual feedback on lifting form to 15+ athletes per session, ensuring safer and more effective workouts that aligned with personalized training plans.

Nazareth University, Rochester New York**August 2020 - March 2022****College Basketball Player**

- Balanced a 30-40 hour weekly training and competition schedule while pursuing a Biomedical Science degree, maintaining a 3.9 GPA.
- Competed in 25+ games per season, consistently demonstrating perseverance and teamwork despite overcoming challenges like a broken hand.
- Developed strong leadership and collaboration skills by working with a team of 15 athletes to execute game plans and achieve a winning percentage of 95%.
- Worked through high-pressure situations and maintained performance, contributing to the team's top 2 finish in the conference.

LABORATORY EXPERIENCE**Biotechnology and Molecular Biology Lab****January 2024 - May 2024**

- This lab analyzed the effect of altering specific codons with the C terminal of the EGF- Receptor, and looked at its effect on signaling and signaling transduction by using biotechnologies techniques and strategies.
- **Skills:** DNA amplification, polymerase chain reaction, oligonucleotide-directed site-specific mutagenesis, fractionation of DNA by gel electrophoresis, cell culture, isolation of DNA, RNA, and protein, gene cloning, DNA sequencing and gene expression using mammalian cell lines

Biochemistry Lab**September 2023 - December 2023**

- Conducted experiments using biochemistry techniques to better understand protein interactions and metabolic pathways in the body.
- **Skills:** Solution and buffer preparation, HPLC, TLC, kinetic analysis of enzymes, protein purification, affinity column chromatography, protein quantitation, and gel electrophoresis.

Organic Chemistry Lab (I and II)**September 2021- May 2022, January 2023 - May 2023**

- Conducted synthesis and analysis of organic compounds using techniques such as reflux, distillation, and crystallization to enhance the understanding of reaction mechanisms.
- Designed and executed multi-step synthesis experiments, documenting procedures and results.
- **Skills:** Titration, centrifugation, NMR and IR centrifugation, reflux, distillation, crystallization

SKILLS

Customer Relationship Management: (Oracle)

Cold Outreach: Cold calling, cold emailing, LinkedIn (Oracle)

Presentation Skills: Presenting weekly teach backs to management and team members (Oracle)

Microsoft Excel: (Oracle)

Technical: Proficient in molecular biology techniques, database management (using online databases such as BLAST or GeneBank), data visualization and interpretation, and lab report writing and presentation.

CERTIFICATIONS

CPR certified, American Red Cross

March 2024 - Present

Massachusetts Life and Health Insurance, NIPR

October 2024 - Present
