EDUCATION

Chapman University, Orange, CA

Expected May 2026

Bachelor of Science in Data Science, Minor in Leadership Studies

3.8 GPA

Relevant Courses:

- Foundations of Data Science
- Database Management
- Hypothesis Testing
- Machine Learning
- Mathematics of Machine Learning
- Calculus
- Applied Business Analytics
- Data Visualization
- Statistics

Certifications:

- R for Data Science - Udemy
- Introuction to Power BI - Udemy
- Foundations of SQL - Udemy

TECHNICAL SKILLS

- Python (Pytorch, Matplot, Sklearn)
- Microsoft Power BI
- C++
- SQL
- R
- Microsoft Excel
- Tableau
- Alteryx
- Microsoft Office

PROFESSIONAL EXPERIENCE

Centene Corporation, Remote

May 2025 - August 2025

Data Science Intern

- Supported analytics initiatives by delivering data driven recommendations to a department of 4 teams and 28 members
- Generated 5+ interactive dashboards in Power BI to reduce manual reporting time and support decision-making
- Developed complex SQL queries to standardize analytics inputs for membership and claims datasets with 1,000,000+ records
- Utilized Excel to validate data quality, streamline member-level reporting, and support monthly ad hoc requests

Fowler School of Engineering, Orange, CA

May 2024–January 2025

Undergraduate Research Assistant

- Presented research at AGU conference in Washington D.C., selected as one of 500 undergraduates out of 20,000 presenters
- Researched under Dr. Thomas Piechota, focusing on climate change adaptation for the West Coast agricultural industry
- Analyzed climate data in Python using various Shared Socioeconomic Pathways (SSPs) and various climate models
- Visualize complex datasets using Matplot library, creating detailed graphs to support climate impact analysis

Phi Gamma Delta, Orange, CA

September 2024–November 2025

Vice President/Treasurer

- Evaluated financial risks and execute transactions with a budget of \$100,000+ using Microsoft Excel
- Led financial strategy that grew chapter funds by 126% over an extended, fifteen month term
- Offered strategic financial guidance to all chapter-led committees across social, philanthropic, and academic initiatives

PROJECTS

Fowler School of Engineering, Orange, CA

December 2025

Plant Disease Classification Using Convolutional Neural Networks

- Developed an image-classifying Convolutional Neural Network to identify disease in plants
- Trained a deep learning pipeline, incorporating data augmentation and multi-layer convolutions to improve feature extraction
- Delivered ~95% classification accuracy to support scalable, automated agricultural monitoring

Argyros School of Business and Economics, Orange, CA

May 2025

Compensation Trends in Data Science Roles

- Developed an interactive Tableau dashboard analyzing salary trends across data science roles
- Cleaned, transformed, and standardized data in Alteryx for proper ETL practices
- Identified key insights, including salary growth across experience levels and employment types

LEADERSHIP AND ACADEMIC ACTIVITIES

- Fowler School of Engineering Provost List, (**3.8+ GPA**)
- Order of Omega Honor Society, (**3.7+ GPA**)
- Code the Change Club, **Member**
- Chapman Real Estate Association, **Member**
- Bracken's Kitchen, **Volunteer**
- Fall 2023, Spring 2024, Fall 2024, and Spring 2024 Semesters
- December 2024 - Present
- September 2024 - Present
- September 2024 - Present
- January 2019 - Present
