Work Experience

VNS Health | New York City, USA

June 2025 – August 2025

Product Management Intern

- Led healthcare data analysis and reporting using Pendo dashboards to identify workflow friction points; implemented navigation improvements that reduced assessment completion time by 10%, enhancing user efficiency
- Optimized hospice referral workflows by translating Pendo data into actionable insights and launching a new form, boosting clinician productivity by 15% and reducing care delays by 30%
- Led product discovery by gathering requirements and user insights; mapped processes, set metrics, and created user flows, stories, and acceptance criteria, delivering a PRD that replaced Excel workflows and improved user satisfaction by 10%
- Cut risk score verification time by 10% through quantitative and qualitative ROI analysis of an AI summary feature
- Audited 200+ health plan dashboards, streamlining reporting processes using Excel (Pivot Tables, VLOOKUP, and formulas)

Diaza Sportswear LLC | New York City, USA

January 2025 – April 2025

Marketing and Data Analytics Intern

- Increased lead-to-purchase conversion by 15% by analyzing website traffic and sales funnel data, performing root-cause analysis, and identifying high-value customer segments; built GA4 dashboards to track performance metrics and KPIs
- Improved customer retention and engagement by 10% through data-driven audience segmentation and content performance analysis across platforms; visualized insights in Excel, Python, and Tableau to guide marketing strategy and optimize outreach

Amin Machinery Private Limited | Vithal Udyognagar, India

May 2021 – August 2021

Project Management Intern

- Boosted efficiency by 15% across eight project lifecycles through planning, reporting, and resource reallocation
- Identified process inefficiencies using MS Project and the Critical Path Method (CPM) to ensure timely delivery
