SUMMARY

Project manager and quality assurance professional with 3+ years of experience spearheading implementations for Fortune 100 companies in the retail, airline, logistics, and restaurant industries. Spearhead \$200K-\$1M projects and collaborate with technical teams and stakeholders to ensure client satisfaction. Manage client communications, reporting, internal project delivery, and process improvement initiatives to achieve high client retention rates. Seeking a business analyst role to drive workflow optimization for an organization committed to innovation and disruption.

EXPERIENCE

Accertify, Itasca, IL

Jul 2022 – Jul 2025

Project Manager, Device Team

- Led and delivered 50+ implementation projects (\$200K-\$1M budgets) to integrate fraud prevention solutions into platforms for clients in the retail, airline, logistics, hospitality, restaurants, and government sectors, improving client website visits by 30-40%, driving client revenue growth of \$500K+ annually, and achieving 90% client retention rate
- Primary liaison between Engineering teams (7-25+ Software Engineers) and client stakeholders to manage project scope, schedule, and deliverables, meeting 100% of all internal deadlines and 98% of initial project budgets
- Streamlined internal processes, automated project workflows, and owned client communications, reducing client onboarding by 30-50% (1-2 week time savings) and improving client onboarding experience
- Identified/resolved technical issues, managed client issues via Jira, and collaborated with clients to develop resolution plans, maintaining 24-48 hour SLAs for customer service response times and preventing project delays
- Developed comprehensive documentation to support knowledge transfer, compliance, and project continuity and trained clients on documentation, ticket management, and processes, saving 20+ hours weekly on client management

Georgia Nut Company, Skokie, IL

Oct 2020 – Apr 2021

Quality Assurance Specialist

- Developed and maintained QA protocols and conducted allergen tests, adhering to GMP (Good Manufacturing Practices), sanitation standard operating procedures, safe food handling, and customer compliance standards for 6-10 product lines
- Analyzed inspection data, customer complaints, labelling, and product manufacturing lines and developed QA inspection reports to senior leadership, driving corrective actions and preventing \$80K in product damages
- Collaborated with production teams to implement changes, maintaining 95% product consistency and boosting customer satisfaction

Benedictine University, Lisle, IL

Aug 2017 – Dec 2017

Teacher's Assistant, Biology Lab

- Assisted 100+ students during lab sessions, facilitated small-group learning, and supported instructors with materials prep and classroom logistics, boosting average student grades by 10-20%

EDUCATION

Northern Illinois University, Dekalb, IL: Master of Science in Management Information Systems

Benedictine University, Lisle, IL: Bachelor of Arts in Biology
