

NARENDER DONIKENA

DATA ENGINEER | CLOUD & BIG DATA PLATFORMS

Cincinnati, OH | narender.d1999@gmail.com | +1 (248) 346-8191 | www.linkedin.com/in/narender-doni

PROFESSIONAL SUMMARY

AWS Certified Data Engineer with 3+ years of experience across data engineering, analytics, and cloud infrastructure environments. Strong expertise in Apache Spark, PySpark, SQL, and cloud-native architectures on AWS and Azure. Experienced in designing scalable ETL pipelines, processing structured and semi-structured datasets, and transforming raw system, telemetry, and diagnostic logs into analytics-ready data lakes. Combines infrastructure-level understanding with data engineering practices to deliver reliable, production-grade data solutions.

CORE TECHNICAL SKILLS

Apache Spark / PySpark	Python (Pandas, NumPy)
ETL & Data Pipelines	Power BI, Tableau
AWS (S3, Glue, Athena, EMR, Redshift)	Data Modeling & Warehousing
Azure Data Factory, Databricks	Linux & Bash Scripting
SQL (Advanced Queries)	Airflow, Jenkins
Kafka, Hive, HDFS	Docker, Kubernetes

PROFESSIONAL EXPERIENCE

JABIL INC. – Florence, KY

Data Engineer / Debug Technician – AWS Server Program | May 2025 – Present

- Work at the intersection of cloud infrastructure and data engineering by analyzing server telemetry, diagnostic logs, and system-level data supporting AWS cloud deployments.
- Perform in-depth root cause analysis on POST failures, boot issues, BIOS faults, CPU/DIMM errors, and thermal anomalies in Linux environments.
- Design structured datasets from raw hardware and firmware logs to enable trend analysis, failure investigation, and cloud readiness assessments.
- Automate log extraction, preprocessing, and validation using Bash and Python, improving data reliability and reducing manual investigation effort.
- Collaborate with firmware, QA, and engineering teams to translate low-level system behavior into actionable data insights for production decision-making.

TECHPATH SYSTEMS LLC – Charlotte, NC

Data Analyst Intern | Feb 2025 – Apr 2025

- Designed and automated scalable ETL pipelines using PySpark, SQL, and Azure Data Factory for enterprise datasets.

- Integrated Databricks workflows with AWS S3 and AWS Glue to support efficient cloud-based ingestion and transformation.
- Conducted data profiling, cleansing, and validation using Python (Pandas, NumPy) to ensure analytical accuracy.
- Developed interactive Power BI and Tableau dashboards to track KPIs and support data-driven business decisions.

HI-REACH BROADBAND PVT. LTD. – Hyderabad, India

Data Analyst / Nov 2018 – Jun 2021

- Analyzed large-scale telecom datasets to support operational monitoring and business performance reporting.
- Built and maintained interactive Tableau dashboards and Excel reports for KPI tracking and trend analysis.
- Collaborated with IT and business stakeholders to design optimized data models improving reporting efficiency.
- Delivered executive-ready business intelligence reports supporting strategic and operational planning.

ACADEMIC PROJECTS & RESEARCH

- Urban Housing Price Prediction – Built regression and ensemble ML models and integrated outputs into BI dashboards.
- Breast Cancer Prediction – Developed classification models and visualized performance using Power BI and Tableau.
- Retail Analytics – Applied clustering and regression techniques for customer segmentation and pricing analysis.
- Sentiment Analysis – Built NLP pipelines to analyze social media sentiment for e-commerce product launches.
- Privacy & Trust Research – Developed anomaly detection and graph-based techniques to assess spam and privacy risks.

EDUCATION

Master of Science (M.S.) in Business Data Analytics, GPA: 3.8/4.0
Lawrence Technological University, Southfield, MI | Aug 2022 – Dec 2024

Bachelor of Business Administration (BBA), GPA: 7/10
Masterji Degree & PG College, Telangana, India | Jun 2018 – Aug 2021

CERTIFICATIONS

AWS Certified Data Engineer – Associate | Apache Spark Core & Advanced (Trendy Tech) | Big Data & Distributed Data Lakes | Advanced Analytics & Machine Learning (Jabil)
