SUMMARY

Business Analyst with 3 years of experience in gathering requirements, analyzing business processes, and delivering data-driven insights to support strategic initiatives. Skilled in stakeholder communication, process improvement, and creating reports and dashboards using tools like Excel, SQL, and Power BI. Proven track record of identifying performance gaps, improving operational efficiency, and supporting business growth through actionable recommendations. Experienced in conducting gap analysis, creating BRDs and FRDs, and supporting end-to-end project lifecycles in Agile environments. Strong analytical and problem solving skills with a focus on aligning business goals with technology solutions.

TECHNICAL SKILLS

- Data Querying & Handling:** SQL (MySQL, PostgreSQL, Oracle, SQL Server), Microsoft Excel (Advanced), Power Query
- Data Visualization:** Power BI, Tableau, Google Data Studio, Looker Studio
- Programming for Analysis:** Python (pandas, NumPy, matplotlib, seaborn, scikit-learn)
- ETL & Data Integration:** Alteryx, Talend, Informatica
- Documentation Tools:** MS Word, Microsoft Excel, Visio, Lucid chart, PowerPoint
- Agile Tools:** JIRA, Confluence, Trello, Azure Devops
- Data Warehousing:** Snowflake, Big Query, Amazon Redshift
- Workflow Automation:** Power Automate, Zapier
- CRM/ERP Tools:** Salesforce, SAP, Oracle Fusion
- Version Control & APIs:** Git, GitHub, REST APIs, JSON

PROFESSIONAL EXPERIENCE

CVS Health, USA Nov 2024 – Current

Business Data Analyst

- Developed complex SQL queries using joins, CTEs, and window functions across PostgreSQL, Oracle, and Snowflake to support ad hoc analysis, financial reporting, and data validation, reducing manual data checks by 35% and improving report accuracy for finance teams.
- Built and automated Excel-based financial models and dashboards using Power Query, Pivot Tables, advanced formulas, and VBA, supporting budgeting, forecasting, and variance analysis while cutting monthly reporting preparation time by 40%.
- Designed and deployed interactive dashboards in Power BI, Tableau, and Google Data Studio to track KPIs, financial trends, cost metrics, and operational performance, improving leadership visibility and enabling faster decision-making during monthly and quarterly reviews.
- Defined and tracked key financial and operational KPIs aligned with strategic business goals, delivering recurring and ad hoc reports for compliance, accounting, and executive review, standardizing metrics across teams and reduced reporting inconsistencies.
- Partnered with finance, accounting, and operations stakeholders to gather requirements and document BRDs/FRDs, supporting financial and strategic planning initiatives and reducing reporting turnaround time by 55%.
- Planned and executed UAT by validating transformed datasets, reconciling financial metrics, and verifying KPI calculations, reducing post-release defects and rework by 25%.
- Collaborated within Agile/Scrum teams, supporting sprint planning, backlog prioritization, and documentation in JIRA and Confluence, helping ensure on-time delivery of reporting solutions across release cycles.
- Delivered executive-level insights through PowerPoint presentations integrated with Power BI, Tableau, and Excel visuals, enabling leadership to identify cost optimization and performance improvement opportunities.

ACL Digital, India June 2021 – Oct 2023

Data Analyst

- Optimized SQL queries using joins, window functions, and CTEs across PostgreSQL, Oracle, and Snowflake to extract, cleanse, and validate large-scale financial datasets, improving data accuracy and reducing regulatory reporting errors by 30%.
- Built advanced Excel dashboards and financial models using Power Query, Pivot Tables, and VBA to support budgeting, forecasting, and variance analysis, reducing reporting turnaround time by 40%. Designed and maintained Power BI, Tableau, and Google Data Studio dashboards aligned with leadership’s financial KPIs.
- Automated daily and monthly reporting pipelines using PostgreSQL-based ETL workflows, eliminating manual report preparation and improving on-time delivery by 35%. Extracted and reconciled financial data from Oracle ERP using PL/SQL, ensuring consistent data ingestion into BI tools.

- Defined and tracked financial and operational KPIs including ROI, forecast accuracy, cost savings, and headcount efficiency across Power BI, Tableau, and Excel dashboards. Led UAT testing by creating test cases, validating ETL outputs, and coordinating stakeholder sign-off, reducing post-release data issues by 25%.
- Collaborated within Agile/Scrum teams, participating in stand-ups, sprint reviews, and retrospectives while documenting requirements in BRD/FRD and managing work in JIRA and Confluence. Followed SDLC best practices to deploy reports across development, UAT, and production with full traceability.
- Utilized Python (Pandas, NumPy, Matplotlib) to automate recurring analysis and perform deeper trend analysis, enhancing dashboard insights and reducing ad hoc analysis effort by 20%.
- Prepared and delivered executive-ready presentations using PowerPoint, integrating visuals from Tableau, Power BI, and Excel to translate complex financial data into actionable insights supporting leadership decision-making.

PROJECTS ([Github](#))

- **Financial Performance Dashboard:** Analyzed sales revenue, regional performance, and variance trends using Excel and Power Query; built interactive dashboards with Pivot Tables to replace manual analysis and improve monthly performance review efficiency.
- **HR Attrition & Workforce Analytics:** Analyzed employee attrition drivers and workforce utilization using Power BI; developed automated KPI dashboards to improve visibility into retention trends and reduce recurring manual reporting effort.
- **Market & Operations Analysis Dashboard:** Analyzed pricing, occupancy, and location-based metrics using Tableau; built interactive dashboards to support comparative market analysis and improve stakeholder access to operational insights.

EDUCATION

Master of Science in Business Analytics (3.93/4.00), University of Scranton, Scranton, USA	May 2025
Bachelor of Technology in Civil Engineering, National Institute of Technology AP, India	May 2023
