

Ramya T
Experience: 4+ years | Domains: Healthcare & Financial Services
ramyat270322@gmail.com | (913) 260-4276 | LinkedIn

SUMMARY:

- Data Analyst with 4+ years of experience delivering analytics, reporting, and insights across healthcare and financial services domains.
 - Strong hands-on experience, practical expertise in Power BI, Tableau, SQL, and Advanced Excel. Has built executive dashboards, MIS reports, and KPI frameworks to facilitate data-driven decision-making.
 - Demonstrated ability to convert business, clinical, and operational needs into actionable insights. This is achieved through BRD/FRD documentation, gap analysis, and process mapping.
 - Experienced in healthcare analytics, working with clinical, operational, and HRIS data while maintaining data quality, governance, and compliance standards.
 - Also has a solid background in financial services analytics, encompassing lending, risk, revenue, and operational efficiency analysis to support strategic planning and cost optimization.
 - Skilled in stakeholder management, collaborating with business users, IT teams, clinical staff, HR, and leadership to deliver comprehensive analytics solutions.
 - Ensured requirement traceability using BRD, FRD, and RTM documentation.
-

SKILLS:

Category	Skills / Tools
Programming & Analytics	Python, R, SQL, Pandas, NumPy, SciPy, PySpark, Jupyter Notebook, Advanced Excel (Power Query, VBA)
Data Visualization	Power BI, Tableau, Domo, Looker (Basics), Plotly, Interactive Dashboards, KPI Reporting, DAX
Databases & Warehousing	SQL Server, PostgreSQL, MySQL, MongoDB, Snowflake, Redshift, Oracle, Star Schema, Fact/Dimension
ETL & Data Engineering	Airflow, DBT, ETL/ELT Pipelines, Data Integration, Data Quality Validation, Metadata Management, API Integration
Cloud & Automation	AWS (S3, Lambda, Redshift, RDS, EC2, SageMaker), GCP BigQuery, Azure Data Factory, Docker, CI/CD, Git
Analytics & Modeling	Data Cleaning, Data Modeling, KPI Tracking, Business Reporting, Statistical Analysis, Predictive Modeling, A/B Testing, Feature Engineering, NLP
Machine Learning & Stats	Regression, Classification, Clustering, Time Series, Forecasting, A/B Testing, Predictive Modeling
Business & Project Tools	Agile/Scrum, Jira, Confluence, BRD/FRD Documentation, User Stories, Requirement Gathering, Stakeholder Management

PROFESSIONAL EXPERIENCE:

CLIENT: *AdventHealth*

ROLE: Data Analyst

Sep'2024 – Present

Responsibilities

- Defined key performance indicators (KPIs) and business metrics, including loan disbursement trends, NPA ratios, customer acquisition cost, and operational efficiency indicators.
- Worked closely with business and operational teams to define and track KPIs such as operational efficiency, cost trends, and performance metrics used in leadership reporting.
- Gathered requirements from finance, HR, and operational stakeholders and translated them into clear BRDs and FRDs, ensuring expectations were aligned before development began.
- Acted as the point of contact between business users and technical teams, clarifying data

- requirements, resolving questions, and supporting smooth handoffs during development.
- Participated in UAT sessions with end users, validating reports and dashboards against business expectations and coordinating fixes where gaps were identified.
- Investigated recurring data issues and reporting delays by tracing data flows end to end, which helped improve data accuracy and reduce turnaround time for reports.
- Supported data governance efforts by maintaining documentation, business rules, and metadata in line with audit and compliance requirements.
- Assisted HR teams by validating payroll figures, benefits data, and employee records to ensure accuracy across HRIS and reporting systems.
- Reviewed onboarding and enrollment data for completeness and consistency, helping reduce downstream payroll and HR reporting errors.
- Took part in Agile ceremonies including sprint planning, stand-ups, and backlog discussions, providing input from a business and data perspective.

Environment: Power BI, Tableau, SQL, SQL Server, Advanced Excel (Power Query), Healthcare Data Models, Clinical & Operational KPIs, Patient Outcomes Reporting, Readmission & Quality Metrics, HRIS & Payroll Systems, Data Quality Audits, Data Governance & Compliance (HIPAA-aligned), API-based Data Integration, Agile/Scrum, JIRA, Confluence, UAT, Stakeholder Collaboration with Clinical, HR, and IT Teams

CLIENT: *L&T Finance*

ROLE: Business Analyst

May'2021 –Dec'2023.

Responsibilities

- Developed and implemented data-driven strategies to optimize operational efficiency and reduce costs within the organization.
- Partnered with business stakeholders to understand operational challenges and identify opportunities to improve efficiency and reduce costs.
- Gathered and documented functional requirements for reporting and system enhancements, ensuring business needs were clearly communicated to IT teams.
- Analyzed lending and financial data to identify trends related to loan performance, risk exposure, and revenue, supporting management decision-making.
- Prepared reports and presentations for senior leadership that summarized findings, highlighted risks, and outlined recommended actions.
- Facilitated requirement-gathering sessions and stakeholder discussions to ensure proposed solutions aligned with business objectives.
- Supported process improvement initiatives by analyzing current workflows and recommending changes based on data insights.
- Collaborated with cross-functional teams during system and process rollouts, helping ensure smooth adoption and minimal disruption.
- Conducted basic market and competitive analysis to support business planning and growth initiatives.
- Helped maintain data governance standards by ensuring reports and metrics were consistent, accurate, and compliant with internal guidelines.

Environment: Power BI, Tableau, SQL, SQL Server, Advanced Excel, Financial & Lending Data Models, Loan Performance Metrics, NPA & Risk Analysis, Revenue & Cost Analytics, Statistical Trend Analysis, Market & Competitive

EDUCATION:

Masters in Data Science from University of Central Missouri Warrensburg, USA
Bachelors in Computer Science from Acharya Nagarjuna University, India
