SUMMARY

Business Analyst with hands-on experience using SQL Server (SSMS) and Microsoft Excel to ingest, validate, and integrate operational datasets. Strong in data quality checks, join validation, and Excel-based reporting (XLOOKUP, PivotTables, exception flagging) to surface missing, late, or at-risk work orders and support PMO prioritization and issue resolution.

TOOLS & ANALYTICAL SKILLS

Data Tools: SQL Server (SSMS), Python (Pandas – basic), Power BI (basic), Smartsheet, SharePoint

Advanced Excel: XLOOKUP, Power Query, PivotTables, Conditional Formatting, Data Validation, IF/OR Logic, TRIM

Core Competencies: Data Integration & Cleaning, Data Quality Validation, Data Reporting, Process Improvement, Stakeholder Collaboration

PROFESSIONAL EXPERIENCE

BUSINESS ANALYST I | General Electric | October 2025 – Present

Contracted to Aero Alliance (a GE and Baker Hughes joint venture) by Genpact/VBeyond.

- Cleaned and integrated operational datasets using SQL Server Management Studio (SSMS), validating data types, handling NULLs/blanks, and performing LEFT JOINS to ensure accurate integration without row duplication or data loss.
- Built repeatable SQL queries to profile data quality (row counts, unmatched keys, duplicate detection) and produce validated, analysis-ready datasets for downstream reporting.
- Developed and maintained Excel-based reporting datasets by standardizing key fields and using XLOOKUP, TRIM, and nested IF/OR/AND logic to reconcile cross-source data and classify match exceptions (e.g., missing keys vs. unmatched records).
- Created stakeholder-ready Excel summaries using PivotTables, binary flag fields (1/0), and Conditional Formatting to highlight exceptions and support prioritization and follow-up.

EDUCATION

Google Data Analytics Professional Certificate | 2024

- Key Coursework: Data Cleaning, SQL, R Programming, Tableau, Excel Dashboards.

M.Phil., Sociology | The Graduate Center, CUNY

- Advanced training in research design, statistical analysis, and data interpretation.

Bachelor's | Miami University
