PROFESSIONAL SUMMARY

Motivated U.S.-based Data Analyst with a Master's in Business Analytics and hands-on experience supporting data analysis, reporting, and business intelligence initiatives across logistics, healthcare, and nonprofit sectors. Strong foundation in SQL, Python, Excel, and BI tools with proven ability to collect, clean, validate, and analyze structured datasets. Experienced in developing dashboards, performing exploratory data analysis (EDA), and supporting cross-functional teams with actionable insights. Authorized to work in the United States.

TECHNICAL SKILLS

Data Analysis & BI Tools: Power BI, Tableau, DAX, Power Query, Data Modeling

Programming & Querying: SQL (Advanced), Python (Pandas, NumPy), R, Basic Java

Data Management & Cloud: Snowflake, Azure, ETL Pipelines, Data Workflow Automation

Analytics & Reporting: Exploratory Data Analysis (EDA), KPI Development, Data Validation

Other Tools: Excel (Pivot Tables, Advanced Formulas, Data Analysis Tools)

PROFESSIONAL EXPERIENCE

Data Analyst | 2MJ Logistics | Anthem, AZ | October 2024 – Present

- Collect, clean, and validate operational datasets to ensure reporting accuracy and integrity.
- Write optimized SQL queries to extract, transform, and manipulate structured data.
- Develop interactive Power BI dashboards using DAX to support leadership decision-making.
- Perform exploratory data analysis to identify trends in logistics performance.
- Use Python scripts for data ingestion, transformation, and workflow automation.

- Document reporting processes and maintain standardized data practices.

Data Analyst (Intern) | Agave Residential Living | Phoenix, AZ | January 2024 – June 2024

- Designed and deployed Power BI dashboards reducing reporting turnaround time by 30%.
- Built DAX measures to track behavioral health quality indicators.
- Performed data cleaning and transformation using Python (Pandas) for EHR datasets.
- Developed Tableau dashboards for compliance reporting.
- Supported data quality monitoring and validation initiatives using Python and R.

Business Analyst | Caritas Nigeria | March 2016 – December 2022

- Conducted statistical analysis and data modeling to monitor treatment adherence and outcomes.
- Developed dashboards in Power BI and Tableau for performance tracking.
- Wrote SQL, Python, and R scripts for ETL processes and reporting automation.
- Collaborated with cross-functional teams to translate data insights into operational improvements.
