

ROHAN PATIL

New York, NY | [linkedin.com/in/rp8399](https://www.linkedin.com/in/rp8399) | rohann.patil@yahoo.com | github.com/rohan8399 | +1 (937) 559-6004

SUMMARY:

Results-driven Data Analyst with over 4 years of experience specializing in Python, SQL, and cloud platforms (AWS, Azure, GCP). Proficient in predictive analytics, data modeling, and developing interactive dashboards using Tableau and Power BI. Demonstrated success in optimizing workflows and delivering actionable insights, particularly in the healthcare and insurance sectors. Experienced in regulatory compliance reporting, advanced data visualization, and driving data-driven decision-making. Open to relocation within the USA to further contribute to organizational success.

CERTIFICATIONS:

- Google Professional Data Engineer
- AWS Developer Associate
- Google Cloud Associate Cloud Engineer
- Microsoft Azure Fundamentals (Az-900)

SKILLS:

- **Programming Language:** Python, R, SAS, MATLAB, JavaScript.
- **Data Analysis Tools:** NumPy, Pandas, Matplotlib, SciPy, OpenCV, scikit-learn, TensorFlow, XGBoost.
- **Database Management:** SQL (MySQL, PostgreSQL), NoSQL (MongoDB), Hadoop, Spark, Oracle.
- **Visualization Software:** Tableau, Power BI, Microsoft Excel, Looker.
- **Data science & Analytics:** Data Analytics, Data Visualization, Data Mining, Data Modeling, Ad Hoc Analysis, Predictive Analytics.
- **Project Management:** Jira, Agile Methodologies, Stakeholder Collaboration

EXPERIENCE:

Data Analyst – Elevance Health Inc., New York

May 2023 - Current

- Developed and deployed data-driven solutions for **predictive analytics**, optimizing healthcare service offerings and reducing claim processing times by **17%**, leveraging **SQL** and **Python**.
- Designed interactive dashboards using **Tableau** and **Power BI** to track patient outcomes, improving decision-making for care providers and increasing operational efficiency by **15%**.
- Automated ETL processes for healthcare claims data, enhancing data accuracy and reducing data retrieval time by **20%** through cloud-based platforms like **AWS** and **Snowflake**.
- Led a **data modeling** initiative to predict patient readmissions, decreasing hospital readmissions by **7%** using **machine learning algorithms and predictive analytics**.
- Collaborated with cross-functional teams, including product and engineering, to streamline data workflows using **Jira** within an **Agile framework**, ensuring project milestones were met on time.
- Developed healthcare compliance reports for regulatory bodies, ensuring data integrity and meeting stringent healthcare standards with 100% accuracy using **SQL** and data **visualization**.

Data Analyst – ICICI Lombard Insurance Ltd., India

Jul 2021 - Jun 2022

- Developed and implemented data models to assess insurance claim risks, improving claim approval efficiency by **15%** through **SQL** and **predictive analytics**.
- Designed business intelligence dashboards in **Power BI** to track customer segmentation and insurance policy performance, leading to a **12%** increase in cross-selling opportunities.
- Automated data workflows to streamline **policy renewal processes**, cutting renewal cycle time by **20%** using **Python** and **ETL frameworks** for **data integration**.
- Designed and deployed **Looker** dashboards to monitor customer segmentation and **fraud detection patterns**, reducing fraudulent claims by **10%** through **data visualization**.

Junior Data Analyst – ICICI Lombard Insurance Ltd., India

Jun 2020 - Jun 2021

- Assisted in designing business intelligence dashboards in **Power BI** to track customer segmentation and insurance policy performance, leading to a **12%** increase in cross-selling opportunities.
- Automated data workflows to streamline **policy renewal processes**, cutting renewal cycle time by **20%** using **Python** and **ETL frameworks** for **data integration**.
- Designed and implemented basic automated workflows using **PowerApps**, **SharePoint** and **Power Automate** reducing manual processes and enhancing business workflow efficiency.

EDUCATION:

University of Dayton, OH

Master of Science in Computer Science

Aug 2022 - May 2024

GPA - 3.80

University of Mumbai, India

Bachelor of Engineering in Computer Engineering

Aug 2017 - Jul 2021

GPA - 3.50

PROJECT:

ChemScan: Your Guide to Chemical-Free Living

- Developed application leveraging GCP for real-time data processing, storage, and analytics. Built data pipelines for ingredient scanning and nutritional analysis using Python and GCP services like BigQuery and Cloud Functions. Designed visualizations (graphs, nutrition scores) with data analysis libraries. Implemented location-based notifications and device interoperability for seamless experience. Integrated APIs for social media sharing and ensured scalable performance with GCP infrastructure.
