PROFILE SUMMARY

- ✧ **3+ years of experience** in data analysis, business analysis, risk management, and strategic consulting in financial industry.
- ✧ Experienced with **Python, Tableau, SQL**, EViews, and InDesign to drive business intelligence and operational outcomes.
- ✧ Proficient in Wind, Bloomberg, Capital IQ, CB Insights, and MS Office for advanced analytics.
- ✧ Strong skills in **Software-as-a-Service (SaaS)** delivery model and **data ETL process**, offering system accessibility.
- ✧ Adaptable and detail-oriented, excelling in fast-paced, data-intensive environments.

WORK EXPERIENCE

INTERNATIONAL BANK OF CHICAGO (FULL-TIME)

Operation Analyst II, Electronic Payment Service Department

Chicago, IL

Oct 2023 – Present

- ✧ Oversee **cross-border** liquidity and financial operations for MSBs, ISOs, and TPPPs, managing \$35M+ in daily asset management. Support **payment** collection, distribution, settlement, and clearing under the **Fedwire** and **NACHA** protocols.
- ✧ Leading new client onboarding through contract, ownership, and compliance due diligence (KYC/OFAC, contractual terms, fee schedules), while maintaining and reconciling the client master database to ensure accuracy and audit readiness.
- ✧ Calculated monthly, quarterly, and annual **billing** and revenue based on transaction volumes and pricing models; partnered with Accounts Payable to support invoice validation, accruals, and period-end close under GAAP.
- ✧ Monitored daily real-time commodities **trading** transactions; reconciled and resolved variances to ensure accurate accounting and timely fund **settlement**. Escalated database discrepancies and collaborated with internal stakeholders for resolution.
- ✧ Processed **data-cleaning** with 250,000 transactional records using Python and **SQL**. Automated e-commerce risk reporting and optimized transaction **monitoring**. Resolved 17+ database backup issues, enhancing **warehouse** reliability and recovery integrity.
- ✧ Partnered with **AML** and compliance teams to review flagged transactions and file **SAR** and **UAR** reports. Enhanced OFAC blacklist matching algorithm, reducing false positives by 50% and enhancing case review efficiency by 30%.
- ✧ Manage daily payment **distributions** by validating disbursement data against accounting, **Basel III**, and internal ledgers. Reconciled **ACH callbacks** and premium adjustments and performed intra-system data checks to ensure accuracy and compliance.
- ✧ Supported cross-functional initiatives by troubleshooting **SWIFT** and **API** connectivity issues across 80 global correspondent banks, ensuring accurate daily transaction and **EDI** message flow in accordance with industry standards.
- ✧ Managed high-volume **Account Opening automations**, processing 5,000+ accounts daily through the Jack Henry **SaaS** platform. Optimized **data dictionaries**, expanded **data-mapping** standards, and developed Python scripts to assess onboarding triggers.

CHINA SECURITIES

Industry Analyst

June 2022 – Aug 2022

- ✧ Synthesized reports and in-depth **industry analysis** on the diabetes monitoring market using **Wind** database. Conducted **data ETL processes** to align with integrity standards. Led to detailed profiling of major brands like Thermo Fisher for stock investors.
- ✧ Developed **Python** web crawling scripts to automate market **data collection**, reducing workload for the pharmaceutical research team by 40%. Transformed data-driven insights into an 85-page analytical report, informed **actionable business decisions**.

DELOITTE TOUCHÉ

Risk Management Consultant

July 2019 – Oct 2020

- ✧ Conducted systematic **risk assessments** for Daimler's automotive finance sector using **Python**. Performed **market trend analyses** and **aesthetic preference evaluations**. Delivered risk case presentation; secured \$507,000 contract with top client.
- ✧ **Consolidated** automotive sales data extracted from 5 platforms into a user-friendly **Excel model**, enhancing the team's report generation efficiency by 25%. Streamlined data management; facilitated quicker analytical turnarounds.

ZHESHANG SECURITIES

Wealth Management

Jan 2018 – Feb 2018

- ✧ Delivered tailored **asset allocation solutions** through direct client interactions. Developed **client relationship management** strategies. Managed relationships and optimized financial portfolios for 90+ clients by analyzing their business models.
