CAREER OBJECTIVE

I aim to leverage my expertise of 5.5 years as a Workday HCM Techno-Functional Consultant to implement and optimize Workday solutions, ensuring seamless HR operations. With a strong blend of technical and functional skills, I bridge the gap between technology and business needs, driving efficiency and performance. I seek to collaborate with diverse teams, analyze complex HR processes, and deliver innovative Workday solutions. Committed to continuous learning, I stay updated on industry trends to provide strategic guidance and become a trusted partner in HR transformation.

SKILLS

- **Workday Modules:** Benefits, Compensation, Talent Management, Performance Management, Recruiting, Onboarding, Learning.
- **Integration:** Inbound and Outbound integrations in Benefit Connectors, HCM Connectors & Payroll connectors.
- **Report Writing:** Workday Report writing and Analytics (Advanced, Composite, Matrix, Simple, search, trending and Transpose), Custom reports using calculated fields.
- **Business Process Configuration:** Compensation, Time and Attendance, Time and Labor, Absence Management, Performance Management, Payroll, Talent Management, Recruiting, Benefits.
- **Workday Security Administration:** Business process configurations, custom reports, EIBs, Workday Studio troubleshooting.
- **Workday Extend & Orchestration:** Developed custom applications using Workday Extend to enhance HCM functionality and used Workday Orchestration to automate workflows across modules.
- **Functional HCM:** Supervisory Organizations, Staffing Models, Job and Positions, Compensation, Defining Business Processes, Security Groups, Customized Report Generation.
- **HR Transactions:** Staffing, Compensation, Time & Absence, Goals, Payroll, HRIS, Service Now
- **Workday EIBs:** Develop/Test User Defined Workday EIB's for large volume transactions.
- **SOX Controls:** Implement and maintain SOX controls for HRIS processes.
- **Test Strategies:** Develop detailed test strategies, plans, and scripts for specific compensation business processes in HCM.
- **Workday Time & Absence:** Configuration of Time Tracking, Absence Management, shift planning, time entry, approval workflows, and integration with Payroll.
- **Reporting & Analytics:** Custom Workday reports for Time & Absence, trend analysis, compliance tracking.
- **Workday Implementation:** Benefits, Payroll, Compensation Management, Absence and Time Off, Time Tracking, Recruiting /Talent Management, migration of PeopleSoft HRMS.
- **Consulting:** Workday implementations, specializing in integrations (EIB, Core connector, Document Transformation, studio) and reporting (Custom, Standard, Matrix, BIRT)
- **Agile & Project Management:** Agile methodologies, Sprint planning, backlog management, JIRA, Confluence.

WORK EXPERIENCE

BROADCOM (REMOTE)

Apr 2023 - Present
